WHO WE ARE
The Maryland Association of Nonpublic Special Education Facilities (MANSEF) is a nonprofit organization of special education schools which are approved by the Maryland State Department of Education, created to promote quality services for children and youth with disabilities. We serve more than 3,800 students between 2 and 21 years of age.

VISION STATEMENT
To realize optimum growth for students with special needs and to advance support to their families by ensuring access to a full range of educational opportunities.

MISSION STATEMENT
MANSEF is the collective voice and essential resource for the nonpublic special education community to champion the continuum of services for students with special needs.

WHAT WE DO
MANSEF is committed to creating educational programs in the least restrictive environment for all children and youth with disabilities. Our schools are a part of the community and provide students with inclusive opportunities. MANSEF unites a diverse group of educators, professionals, and parents into an accessible, visible, and effective organization that champions the continuum of services for special needs children and adolescents in Maryland.

WHO WE SERVE
MANSEF schools provide services for children and youth who have at least one of the following federal census codes:

01 – intellectual disability
02 – hearing impairment
03 – deaf
04 – speech or language impairment
05 – visual impairment
06 – emotional disabilities
07 – orthopedic impairment
08 – other health impairments
09 – specific learning disabilities
10 – multiple disabilities
12 – deaf-blindness
13 – traumatic brain injury
14 – autism
15 – developmental delay
HOW TO USE THIS DIRECTORY

MEMBER SCHOOL BY NAME: Use the Table of Contents –
Alphabetical by School Name on pages 1 – 2.

MEMBER SCHOOL BY LOCATION: Use the Table of Contents –
Geographical by County on pages 3 - 5.

MEMBER SCHOOL BY DISABILITY SERVED: Use the Table of Contents –
By Disability Served on pages 6 -11.

MEMBER SCHOOLS OFFERING RESIDENTIAL: Use the Table of Contents –
Schools with a Residential Component on page 12.

Individual school program descriptions begin on page 13.

To learn about how the special education process works in Maryland, read the
information provided in the section titled “Understanding Special Education
and Advocating for Your Child” on pages 112 - 115

To reference regulations and COMAR Citations refer to pages 116-122

To learn more about Advocates, Attorneys and Educational Consultants
available to help you understand the special education process, refer to the
Appendix on page 123

To find out more about the Additional Resources available to families with
special needs students, refer to the Appendix on page 126

Other State Associations on page 131

This directory can be downloaded from our web site at www.mansef.org.

The MANSEF Directory (print version) is published in
September of each year. Changes or revisions during the school year
are posted on our website and can be found at www.mansef.org
An Important Message About Nonpublic Special Education

The Friends of MANSEF serves in an advisory capacity to the MANSEF Board of Directors for two purposes: (1) to address matters of family involvement and communication, and (2) to act as a core group of advocates to help educate government leaders, policy makers and members of the general public about the educational needs of children with disabilities.

All parents are concerned about the quality of their child’s education, including parents of children with special needs and learning challenges. If your child has special needs and you have concerns regarding the appropriateness of the instruction your child is receiving, you have the right to discuss the possibility of her/his placement in a nonpublic special education school.

Key Points:

1) Nonpublic schools are vital to the fulfillment of IDEA, the Individuals with Disabilities Education Act. IDEA mandates a “continuum of alternative placements to meet the needs of children with disabilities for special education and related services.” Nonpublic schools are one component in that continuum, and fulfill a unique and essential role in meeting some students’ particular educational needs. Nonpublic schools serve an important role for Maryland to comply with federal law regarding education for special needs students. **IDEA does not require every child to be placed in the public school classroom.**

2) Nonpublic schools are uniquely equipped to provide the specific, multidisciplinary, frequently intensive resources students with special needs require. The scope and depth of staff expertise afford specialized, integrated programming that goes beyond academic education and encompass the social and emotional well-being of each student. In addition to the skilled, highly trained teachers and related service providers, nonpublic schools are staffed to provide other such critical services as behavior programs, crisis management and medical attention.

3) The least restrictive environment (LRE) is different for every student as outlined in IDEA and a nonpublic special education school may be the LRE for some students. The LRE is where the child’s educational needs can be met. LRE does not consider whether a public school, nonpublic special education school or a disability-only charter school operates the classroom. A separate public-based program is not less restrictive than a nonpublic special education school. **LRE is not simply a matter of keeping students in local public schools.** The least restrictive and appropriate placement for a student must have all necessary supports and services to enable him or her to learn and to fully participate as a valued member of the school community. Students should not need to fail in a less restrictive placement before a nonpublic program is provided.

“My son’s ability to successfully obtain competitive employment in the community and to successfully participate in a variety of community activities was made possible because of the intensive services and supports he received in a nonpublic program during his high school years.”

—Linda Carter-Ferrier, parent
4) **Partnering is powerful.** Nonpublic special education schools have reached out to public school systems to create partnerships that bring the highly regarded expertise and experience of MANSEF into local public schools via programming housed within those settings. Our goal is to implement specialized programs to support the educational success of students with special needs.

5) **Placement must be individually determined.** A local public school system cannot *unilaterally* decide to bring all students placed at a nonpublic special education school back to an in-district program, nor can it decide that all students with a *particular* disability must be educated within its schools. IDEA requires the placement decision for each student to be made individually by the IEP team. Parents are a part of the process.

6) **Benefits of nonpublic special education.** Students feel much more included and valued when they are truly part of their school community. In nonpublic special education schools, students have a real opportunity to fully participate in all aspects of school life—from sports, clubs, plays and school government to talent shows and the prom. They participate, not by being "assigned to a peer" or as someone’s “buddy,” but as a person, an individual—and often, as the leader.

7) **Location of program is NOT an outcome.** MANSEF collects data on what happens to students after they leave nonpublic schools. Recent data show that at least 85 percent of students in elementary and middle schools advance to the next grade each year with proficiency in curriculum-taught subjects; 63 percent of graduates have successfully enrolled in post-secondary education institutions or technical school and apprenticeship settings—nearly 20 percent higher than the national rate. Nonpublic special education school graduates go to college, trade schools, jobs and the military, and are linked with post-secondary service providers at impressive rates. **It is the outcome that matters—not just where the services are delivered.** (For more results, please see the MANSEF post-secondary outcomes study at www.MANSEF.org.)

8) **Nonpublic special education is NOT more costly.** This has nothing to do with LRE, but it has been the focus of many decisions that deny a student’s necessary services. Nonpublic special education schools deliver the mandated services in a way that is cost-effective, efficient and beneficial to the students. The nonpublic special education schools are financially responsible providers of vitally needed educational services delivered in small therapeutic settings that are community based—unlike their public school partners, which serve up to hundreds or thousands of students in one building.

MSDE Approval Category: TYPE I Special Ed and TYPE III

Disabilities Served: 06-emotional disabilities, 08-other health impairments, 09-specific learning disabilities, 10-multiple disabilities, 14-autism

Capacity of Facility: 45
Ages Served: 11 - 21
Grade Range: 6 through 12

Private Pay Students Accepted: Yes ( ) No ( X )
Setting: Day ( X ) Residential ( )
Before and/or After School Program: Yes ( ) No ( X )
Nurse on-site either part-time or full-time: Yes ( X ) No ( )
Building and classrooms wheelchair accessible: Yes ( X ) No ( )

Hours of Operation for school day: 8:30 a.m. to 2:30 p.m.

Length of School/Program Year:
10-month ( ) 11-month ( ) 12-month ( X ) extended school year ( )
4-week summer school ( ) 5-week summer school ( ) 6-week summer school ( )

Program Description: The Arrow Center for Education is a small, nurturing, structured and supportive middle and high school program that provides special education and clinical services to students who are primarily identified as having an emotional disability. Students with other disabilities may be admitted to the program on a case by case basis. The program follows the Baltimore County Public School curriculum, and offers four completer choices for graduation with a high school diploma: graphic designs, horticulture, vocational placement in the community, and foreign language. In addition to the core curriculum, the school offers a variety of electives. Positive behaviors are proactively taught and rewarded to increase students' participation in their school program. A BCBA, placed full time at another Arrow program, is also available to consult as needed. A psychiatrist is available for assessment and medication management at family request.

Related Services: Individual, group, and family clinical therapy are integrated into the program design. Speech and language services, physical therapy, and occupational therapy services are provided through consistent contractors.

Program Description: The Arrow Center for Education Riverside is a small, nurturing, structured and supportive elementary and middle school program that provides special education and clinical services to students who are primarily identified as having an emotional disability or autism. Students with other disabilities may be admitted to the program on a case by case basis. The program follows the Harford County Public School curriculum. In addition to the core curriculum, the school offers a variety of electives including vocational placement completer. A sensory movement and a sensory calming room is available to students with sensory diet needs, and a large, fenced, outdoor play area is available to all students. An interactive computer and media lab supports student instruction. Positive behaviors are proactively taught and rewarded to increase students' participation in their school program. A BCBA, placed full time at another Arrow program, is also available to consult as needed. A psychiatrist is available for assessment and medication management at family request.

Related Services: Individual, group, and family clinical therapy are integrated into the program design. Speech and language services, physical therapy, and occupational therapy services are provided through consistent contractors.

Length of School/Program Year:

10-month ( ) 11-month ( ) 12-month ( X ) extended school year ( )

4-week summer school ( ) 5-week summer school ( ) 6-week summer school ( )

Program Description: The Arrow Center for Education Tangram is a nonpublic day school designed to provide full-day special education and related services to a maximum of 45 students ages 8 to 21. Elementary School grades 3 through 5, middle school grades 6 through 8, and secondary school grades 9 through 12 are offered at The Arrow Center for Education Tangram. The primary goal of the educational program is to help students reach their potential in the areas of academics, communication behavior, social skills, and life skills. The school employs evidence-based practices such as those established through Applied Behavior Analysis. A full time BCBA is available and oversees and monitors student behavioral success. A psychiatrist is available for assessment and medication management at family request. Community and vocational goals are reinforced through a rich schedule of community based instruction, and students, when ready, participate in pre-vocational and vocational activities both in and off-site. A sensory movement and a sensory calming room are available to students with sensory diet needs, and a small model apartment allows for the practice of activities of daily living. In this therapeutic, treatment-oriented context, each student is tested, identified, and treated as a unique, individual learner.

Related Services: Speech/language services are integrated within the program design. One to ones are provided as the IEP designates, but the overall program model emphasizes a very rich staff to student ratio for all students. Occupational and physical therapy is provided, as needed, through consistent contractors. Service delivery occurs in the classroom in a collaborative model with the special educator and the related service provider.

Program Description:  
The Auburn School’s mission is to grow the social and academic potential of birth students with social and communication challenges. We offer a dynamic educational program for intellectually curious students with challenges in the areas of communication, socialization, pragmatic language, and organization. Our program is appropriate for students who can learn successfully and appropriately in a small classroom setting. Auburn’s program simultaneously supports the development of academic skills, social competency and pragmatic language in an engaging educational environment. Auburn’s program is designed for students who can benefit from these supports, including, but not limited to, students who are diagnosed with Asperger's Syndrome (ASD), PDD-NOS, Nonverbal Learning Disorder (NVLD) or Attention Deficit Hyperactivity Disorder (ADHD).

Related Services:  
Speech, OT and behavior support are integrated in the Auburn Model and provided throughout the day in the classroom for all students. Additional services for speech, OT, Behavior and learning disabilities are available for an additional fee.

Program Description: The Baltimore Academy is a 12-month school program serving students with emotional disabilities in grades 6 - 12. Students with secondary conditions such as specific learning disabilities, intellectual disabilities, substance use disorders, physical disabilities, and/or other health impairment also receive special education services. A wide range of instructional and related services are available.

Our goal at The Baltimore Academy is to provide sound educational experiences, to ensure a positive learning experience for every student while using state-of-the-art materials and teaching strategies. The Baltimore Academy offers two alternatives for completer sequences, which include Career Research and Development, and Spanish. Another service we provide is an E-Learning program through a partnership with Edgenuity that supports credit recovery. Finally, we strive to prepare students for successful adjustment to future educational placements in less restrictive settings, as we move students toward high school graduation while supporting their overall academic, social emotional, and behavioral needs.

Related Services: Social work, psychological consultation, psychiatric consultation, speech and language services, drug and alcohol counseling.

Program Description: Baltimore Lab School educates bright, motivated children in grades 1-12 with learning differences. Through our innovative, multisensory, arts-based curriculum, our students go on to succeed in college and careers as engaged and compassionate members of a global society. In addition to mastering core academics, students explore the visual and performing arts, participate in outdoor education, service learning projects, and athletics. Our students gain confidence, self-esteem, and self-awareness. Baltimore Lab School students thrive in small classes with an exceptionally low teacher/student ratio with highly trained teachers and full-time on-site occupational therapists, speech and language pathologists, psychologists and social workers. Baltimore Lab School approaches education from a completely unique perspective and every student at Lab School receives a high level of individual attention.

Related Services: Speech/language pathology, occupational therapy, psychological and counseling services.

4-week summer school ( ) 5-week summer school ( ) 6-week summer school ( )

Program Description: The Benedictine School is a 12-month day and residential facility for autistic, intellectually disabled, and multi-disabled children and youth, ages 5 to 21. Founded by the Benedictine Sisters, the school is located on 500 acres in Caroline County on the Eastern Shore of Maryland. Benedictine's approach to individuals with developmental disabilities is the creation of a supportive and therapeutic environment in which to foster the development of the whole person and to assist the individual in maximizing present and potential strengths.

Benedictine provides an individualized and multi-disciplinary approach with regular communication and collaboration amongst all team members – school, residential, therapists, family, local school systems, and placing agencies. The mission is "helping children and adults with developmental disabilities achieve their greatest potential." This mission is achieved through educational, daily living, social and vocational tasks in classroom, residential, vocational, and community settings.

Services are provided in a highly structured, highly supervised educational and residential setting. Environmental structuring of physical spaces is provided to maintain safety and includes study carrels, quiet areas, alternative learning rooms, and sensory rooms. On-site supports to assist students with behavior management and crisis intervention are integral parts of our program. Small class sizes and a high staff student ratio (1:3 or better) is provided.
Learning is enhanced by the variety of settings available. These include large classrooms, therapeutic room, sensory areas, motor room, full size gymnasium, indoor pool, library/media center, updated and accessible playground and athletic fields.

Career development and vocational programming are offered in several on-site and off-site stations based on the individual needs of the student. Services start with comprehensive interest and skills assessment and exposure to a variety of vocational opportunities to maximize success and opportunity. On-site options include cleaning service, food service, car-wash, greenhouse, deliveries, packaging and assembly, as well as other opportunities based on student need. Off-site options have included a variety of partnerships with community businesses on the Eastern Shore.

Residential placement is available for students who need a 24 hour educational environment. Residential services and goals focus on developing and improving functional living skills, self-help skills, life skills, social skills, and communication skills. A strong emphasis is placed on consistency and carryover of learned activities including standardizing the teaching techniques of the staff in the day and residential setting. Residential calendars include 300 days up to 365 days per year. Settings include both on-campus residential suites and off-campus group homes.

**Related Services:** Speech, Occupational therapy, physical therapy, individual and group counseling, psychological, psychiatric, medical, home management, leisure education training, assistive technology, adaptive physical education and aquatics, vocational and pre-vocational, and transition services.

- 6-week summer school ( )

Program Description: Cedar Ridge School is located on the 100+ acre campus of Cedar Ridge Children’s Home and School, Inc. The school has a Type I Special Education program that primarily serves students with emotional disabilities and other health impairments. Many students may also have learning disabilities, intellectual disabilities or a diagnosis on the autism spectrum. The Type I General Education program predominantly serves male students who have been placed in the Cedar Ridge Children’s Home. These students may or may not have an IEP. Students are co-mingled to maximize the benefits of both programs.

Cedar Ridge provides a safe, nurturing environment that is highly structured and predictable, with low student to staff ratios. A school-wide, positive behavioral management system is utilized, which incorporates social skills training and natural consequences, as well as crisis management as needed. We make every effort to partner with parents and any agency working with enrolled students in order to help each student make academic, emotional, social and behavioral growth.

Curriculum based on Common Core standards is utilized along with resources from local counties such as Washington County Public Schools to provide the most appropriate instructional materials for our student body, taking into consideration the individual needs of each student. Elementary and middle school students receive instruction in Language Arts, Math, Science, and Social Studies. Other learning opportunities may include reading intervention, art projects, keyboarding exercises, social skills training and student service learning activities. High school students receive instruction for all required courses in English, Math, Science and Social Studies, as well as PE, Health/Life Skills, Fine Arts and Foundations of Technology. Career Research and Development is the current completer for graduation. Remediation and reading intervention programs are made available on an as needed basis.
Whenever possible, Cedar Ridge School endeavors to prepare students to succeed in a less restrictive environment, whether that is a public school setting or a community based work program.

**Related Services:** Individual and group counseling are built into the program, utilizing a variety of modalities that include experiential learning, access to animals and nature, exploring vocational interests through community involvement, as well as traditional talk and play therapies. Washington County Public Schools provides speech and occupational therapy services as needed and the school has a nurse available to oversee medication and other health related concerns.

Program Description:  For over 40 years, Chelsea School has prepared students with language-based learning disabilities for higher education. Most of our students have a disability that affects their acquisition of basic reading, writing, and math skills. Additionally, a number of our students have deficits in executive functioning. Our mission is to prepare our students for higher education by providing a school that embeds literacy remediation, technology, and creative teaching practices in all aspects of the curriculum.

At Chelsea School, all students receive targeted remediation in reading through our three-tier program. Students are grouped in classes that focus on their specific needs: sound-symbol recognition and decoding, fluency, and comprehension. The rigorous academic program at Chelsea School includes classes in higher level math, science, and technology. Students have the option to choose from three advanced technologies pathways for graduation: computer graphics, information systems management, and television production.

Chelsea School also offers a well-balanced educational program that includes after-school enrichment opportunities through various sports and clubs. To prepare students for life after Chelsea, all students complete individualized transition programs based on Maryland’s Career Development Content standards. Over 90% of our graduates attend college or a post-secondary educational program. Our middle and high school programs are approved for funding by Maryland and District of Columbia departments of education.

Related Services:  Speech and language therapy, social skills training, occupational therapy, individual and group counseling, career counseling, academic remediation/study skills, and tutorials.

Program Description: The Children’s Guild, Inc. serves special education students in grades K-12. Each classroom is equipped with technology that enables access to supplemental programs, online curriculum and research. The Guild stresses parental involvement, as parents take part in an orientation, receive regular contact from the education team, and are provided opportunities to be involved in parent activities.

Programs are available for children with autism, multiple disabilities, intellectual disabilities and emotional disabilities. A School to Work program is provided that offers students ages 14 -21 a non-graded certificate program. The autism program uses a highly structured classroom environment known as the TEACCH model and regularly scheduled daily activities. High School students have the opportunity to becoming acclimated to the world of work through in-house work experience, and preparation and exposure to apprenticeship standards related to Information Technology, Digital Marketing and Social Media, Hospitality and in retail/business.

The educational program is aligned with the Maryland College and Career Readiness standards and DCPS Common Core State standards and delivered through a project based learning approach. The classroom team consists of certified special education teachers, social workers, related service providers and therapeutic behavior aides. Mental health and behavioral specialists oversee crisis management. Individual, group and family counseling are available per the child’s IEP. A transition program is available to assist students with exploration of vocational/career opportunities and connection with community resources after discharge. Students who are at risk of regression during the summer attend an extended school year program through the IEP process.

Length of School/Program Year:

10-month ( ) 11-month (x) 12-month ( ) extended school year ( )
4-week summer school ( ) 5-week summer school ( ) 6-week summer school ( )

Program Description: The Chimes School, which has been in continuous operation since 1947, is an 11 month nonpublic coeducational special education facility, approved by Maryland State Department of Education. The school provides educational services to students between the ages of 5 and 21 with intellectual disability, multiple disabilities and autism. A diploma track program is offered in grades K-8. A certificate of program completion is available for grades K-12. The student population has not only a wide age range, but also a wide range of functioning levels.

Classrooms are located in one building in the Seton Business Park in Baltimore City. Classes are primarily self-contained, with student groupings based on functioning level and grade. All classroom teachers are certified in special education. The curriculum includes functional academics, practical living skills, pre-vocational and vocational training and self-help skills. Related services include speech/language therapy, social work, counseling, nursing, occupational therapy, physical therapy, music therapy and psychiatric medication management. Behavioral supports and crisis intervention are also provided. Emphasis is placed on developing socialization skills with a focus on socially acceptable behavior.

Community-based instruction is fostered throughout the program, in order to encourage generalization of skills across environments. As skills are learned, they must be utilized in naturally occurring situations to make them truly useful.

Pre-vocational training is provided within the self-contained classrooms appropriate to the age and functioning level of the students. While basic skill development is stressed, the development of appropriate work attitudes and habits is equally important.
As students reach the age of 14, an individual transition plan is developed as part of the IEP. Programming then focuses on vocational experiences, with many of the groups having regular jobs in the community. These jobs are made at a variety of community placements where students work as volunteers. This not only provides opportunities to explore areas of vocational interest at actual sites, but also encourages the development of personal commitment to community service.

The Chimes School links with Chimes Adult Vocational Services, Inc. to provide an appropriate work/study placement in the community. Individual students may meet the specified criteria for a community position for the hours indicated in the IEP. Training and job support services are provided by Chimes School staff.

**COACH PROGRAM**

COACH (Chimes Opportunities for Autistic Children), focuses on students who have a diagnosis of Autism, or a related disorder, which includes intense communication and behavioral challenges. This program uses researched based tools of Applied Behavioral Analysis (ABA) and Applied Verbal Behavioral Programming (AVB).

Students being considered for this programming will have a history of behavioral needs, crisis intervention, communication challenges, sensory difficulties and needs for career development related to Autism.

Under the direction of a Board Certified Behavior Analyst, students within the COACH program become more independent in their learning, work and home environments. The use of AVB/ABA is incorporated into instruction to address intense skill development and behavioral needs. The value of participating, tolerating and performing successfully within the group situation, among peers and co-workers, is an essential element for our COACH students. To support this effort programming includes Behavior Analysis, Speech Language Therapy, Occupational Therapy, Social Work, Physical Therapy, Nursing, and Transition Planning. The use of the Verbal Behavior Milestones Assessment and Placement Program (VP-MAPP) is used to assist in the assessment of developmental milestones and to guide curriculum development. It is our philosophy that each student can develop appropriate means of communication, to reduce negative behavior and promote positive means of expressive language, coupled with generalizing such skills to the home and work settings.

**Related Services:** Social work, speech and language therapy, counseling, behavioral support, occupational therapy, physical therapy, music therapy, nursing, and psychiatric medication management.

**Program Description:** Community Services for Autistic Adults and Children, Inc. (CSAAC) is the non-profit entity that operates and manages the Community School of Maryland. The Community School of Maryland is comprised of a day and residential school for six (6) through twenty-one (21) year olds.

The primary goal is to prepare students for inclusion in their communities and for positive post-secondary outcomes. There are currently five classrooms, each with a capacity of seven students. In addition, there is a gymnasium, computer lab/media center, Pre-vocational/Life Skills Center, resource room, a lunch room and a fully equipped kitchen. Instructional focus is on functional academics to include mathematics, reading/language arts, handwriting/word processing, science and social studies, and health; communication; self-care and independent living skills; recreation and leisure skills; and vocational skills. There are a number of school-based work experiences which include supply delivery, landscaping and food services training opportunities. A variety of paid and non-paid community-based work experiences are developed each year, consistent with the interests of the students. Additionally, all students participate in weekly community-based activities during school and/or residential hours of operation, like swimming, bowling, movies, 4-H Club; field trips; shopping; eating out; banking; and a number of other activities designed to more fully integrate them into the community, generalize classroom skills to the community and improve the quality of their lives. Each student follows an individualized schedule that includes behavioral and instructional programming to maintain continuity in the school and/or residence. Community School of Maryland has a reading specialist on staff to help assess, and provide intensive reading instruction. Students also have the opportunity to partake in activities such as annual Prom, Field Day, and Science Fair among other events.

**Related Services:** Speech and language therapy, occupational therapy, psychological support, adaptive physical education, horseback riding and additional related services and/or consultations are provided, as indicated on students’ IEPs.

Program Description: Echelon Academy employs the very best research-based strategies and instructional methodologies. Our curriculum content is carefully aligned to the state learning standards. Where necessary, appropriate modifications and adaptations are made to ensure all students can access academic material at personally challenging levels.

The Arts are an integral part of our teaching model, allowing students to be taught and assessed through varied means, not confined to paper and pencil measures. Cultivating enriched and engaging educational experiences through literature, music, art, drama, 3-D depiction and movement makes learning interesting and results in higher academic achievement. Research has shown Arts Integration (AI) experiences are seen to be critical to a quality education, and powerfully influence young people in their ability to learn and support future career choices. Therefore, AI is fully embedded every day and as research demonstrates, AI increases achievement levels for all students.

Each student at Echelon Academy has a student Blueprint that specifies key learning goals and levels of achievement. Plans are designed by our director, teachers, parents, and students. Learning plans are reviewed and modified as necessary. Weekly, the school faculty meets to discuss and actively manage individual student progress.

The Echelon Academy established The Brady Aaron Program for students who require additional support. All publicly funded students are automatically enrolled in The Brady Aaron Program.

Program Description: The Forbush School at Anne Arundel, part of the Sheppard Pratt Health System, is an 11-month special education and related services program located in Ruth Parker Eason Special Education Center, in Millersville, Maryland. We provide educational services to students ages five to 21 with autism and intellectual disabilities. By establishing a comprehensive and integrated approach, we offer students and parents a comfortable, safe environment where students can thrive. We believe success can only happen when we collaborate with the entire family, and our staff work with parents to ensure that new skills learned at school can be applied at home. Our main focus is to stabilize maladaptive behaviors and to help our students make academic progress based on their individualized education program (IEP).

We provide our students with opportunities to experience life in their community in compliance with their data-based IEP. Because we are housed within a public school, we are able to provide academic, behavioral, and vocational supports and services to our students so that they can participate in public school programming to the greatest extent, and transition back to a less restrictive educational environment as soon as possible. As part of our program, in addition to functional academics, students will develop communication skills, self-care skills, socialization skills, vocational skills, and recreational/leisure skills. To best meet the needs of your child’s IEP, we frequently utilize proven practices such as, core communication, social skills instruction, sensory integration strategies, community-based instruction, and vocational instruction. Our students participate in library/media, physical education, art and music instructed by staff in the Special Education Center. We implement the Anne Arundel County Public School approved Unique Curriculum based on the Common Core Standards to instruct the Maryland College and Career Ready Standards, and utilize the Syracuse Community-
The Forbush School at Anne Arundel

Program Description: The Forbush School at Frederick County is a Type II full day, partial day, Special Education and related services program for students with autism, emotional disabilities, specific learning disabilities, and other health impairments in Elementary School (grades 1-5). The program is a collaborative effort between the Sheppard Pratt Health System (SPHS) and Frederick County Public School System (FCPS) to serve students who are expected to earn a high school diploma. The Forbush School at Frederick County will provide instructional, related service and mental health support to meet the needs of students in the program within the context of the public school setting. Students will be assigned to a self-contained classroom for core content courses taught by SPHS staff including special educators, educational assistants, and related service providers with the expectation that students will mainstream into the less restrictive FCPS setting for specials, lunch, and content courses when readiness is demonstrated. Students will have access to public school facilities and programs (i.e. media center, cafeteria, computer lab, library etc.)

Related Services: Individual and group counseling and social skills training, speech and language therapy, crisis intervention. Other related services such as occupational and physical therapy are provided as determined by the students’ Individualized Education Program (IEP.)

Program Description:  The Forbush School at Glyndon and Hannah More Center is a nonpublic, twelve-month, special education day school serving students ages 2 to 21 with primarily emotional and behavioral disabilities and autism. Part of the Sheppard Pratt Health System, the school has two campuses in Reisterstown, MD. Each campus provides a supportive, nurturing, and structured environment, in which we integrate specialized academic instruction, counseling, behavior modification, and transition services. Our high school students may pursue college and career readiness goals by participating in work-based learning with local businesses and/or taking coursework at a local community college. Through our student-centered, multi-disciplinary approach, we are able to meet the unique needs of each student. Our goal is for each student to reach their highest potential academically and social/emotionally. The Forbush School at Glyndon and Hannah More Center offers programming for students from Maryland, Washington, D.C., and Southern Pennsylvania.

Related Services:  Behavior management and 1:1 classroom aides as needed, individual and group counseling, speech/language therapy, occupational therapy, physical therapy, transition services, school health service. Medication management is provided by on site psychiatrists.

Program Description:  The Forbush School at Hunt Valley is a program of the Sheppard Pratt Health System, Inc. (SPHS) and under the auspices of SPHS Board of Trustees and Administration. The Director of Education is responsible for the governance and operation of the education program. The students attend classroom and community-based instruction individually and in small groups. A student to staff ratio of 1:2 is maintained at all times. Instructional areas, which are determined by each student’s IEP, may include communication skills, self-care, individualized academics, fine and gross motor skills, socialization skills, and recreation/leisure skills. Each student has an individualized schedule for programming in school that outlines his or her instructional day.

Our primary goal is to help the students to become more independent and access as many environments and settings as possible. In this way, they can be better integrated into less restrictive school and community settings. The school implements the Maryland State Curriculum for College and Career Readiness, The Syracuse Community - Referenced Curriculum Guide for students with moderate to severe disabilities, The Verbal Behavior Milestones Assessment and Placement Program (VB-MAPP), and Essential for Living (EFL) Curriculum.

Related Services:  Related services available include psychiatric services medication over-site, speech and language therapy, psychological services, school nursing services, and occupational therapy. These services are provided by direct therapy and/or consultation as indicated in the student’s IEP.

Program Description: The Forbush School at Prince George’s County is located in a secluded cul-de-sac in the vibrant business community of Lanham, Maryland, on the outskirts of Washington, DC. We serve students with complex emotional, behavioral, and intellectual disabilities, including autism spectrum disorders and other related disorders, who are working toward a Certificate of Completion. Our school boasts walking and bike paths, a student-run school store, a sensory suite, state-of-the-art computer technology, and specially designed classrooms. Many of our high school aged students participate in school and community-based vocational experiences. Our staff works diligently to provide a safe, structured, nurturing environment where we assist all students and their families in achieving their maximum level of independence. Program components include positive behavioral interventions and supports, discrete trial, individualization, natural aided language stimulation, motor skill development and sensory integration strategies, school-based vocational instruction, and community-based instruction. The Forbush School at Prince George’s County provides quality and individualized special education and related services for students with autism and related disorders who may present with challenging behaviors. We emphasize the development of functional behavioral, educational and communication skills, as well as positive social and family relationships. We utilize evidence based practices, proactive and positive interventions, consistent standards, and well trained and supportive staff. We are committed to empowering our students with the skills, tools and resources necessary to realize the goals of community integration; the highest quality of family life; making informed choices about their future and becoming successful, happy, independent adults, to the greatest extent possible.

Program Description: The Foundation Learning Center offers specialized programming to meet the unique needs of students with ASD who display a spectrum of developmental delays, social skills impairment, and communication development needs. Our goal is to enhance how students with ASD learn by providing an integrated approach to address each student’s unique academic, behavioral, and social/emotional requirements in a safe and supportive learning environment. We promote a team approach which values cooperation, collaboration, and involves students, school personnel, parent/guardian(s) and the community. We provide job embedded professional development to our staff to develop a highly qualified and dedicated staff.

The Foundation Learning Center has been carefully designed to provide the educational and behavioral supports needed for children with Autism Spectrum Disorder and other Developmental Disorders. We offer sensory-friendly programming for students in kindergarten through 8th grade, as well as life skills and transition programming. The program for each student is determined through the development and implementation of the individual student’s Individualized Education Program (IEP). The IEP is developed in a collaborative team effort which includes staff from The Foundation Learning Center, a representative of the student’s funding local school system (LSS), the student’s parent/guardian, the student (if appropriate), and other professionals who work closely with the student.

The many facets of the Foundation Learning Center program are designed to implement goals which actualize the philosophy that every student can experience success in a learning environment given appropriate instructional conditions. The elementary and middle school curricula, grades K-8, offers subject courses appropriate for elementary through middle school and allows students to meet the requirements of their home school district. All classes are small in size and the elementary classrooms are self-contained.
The Foundation Learning Center
(continued)

In accordance with IDEA, each student in The Foundation Learning Center must have an IEP (Individualized Education Program) that meets the academic and social skills needs of the student. IEPs are developed by a team consisting of teachers, a school administrator or designee, related service providers, local school representative, the parent/guardian, and the student as appropriate. The IEP reflects an integration of educational and related service goals.

As students achieve continued success at The Foundation Learning Center program, the process of transitioning to the mainstream will begin. When a student meets the criteria for mainstreaming, The Foundation Learning Center staff coordinates the transition procedures with the appropriate LSS personnel. Decisions for a change of placement are based on input from school staff and parents with LSS representatives participating in both the pending and final placement recommendations for the student.

The clinical program for The Foundation Learning Center consists of a variety of therapeutic interventions, services, and systems to help students succeed in school. The components of the clinical program include individual or group counseling as appropriate. Parent education, social skills training, applied behavior analysis interventions and planning, and positive behavior management are all important aspects of the clinical program.

Communication between the educational and clinical staff is a crucial component in the school program. An interdisciplinary team meets regularly to discuss each student’s educational and behavioral progress and communicate clinical issues concerning the student. This team generally includes a teacher, a therapist, program assistant and dedicated aide if indicated on student’s IEP. Others possible team members can include a speech/language therapist, occupational therapist, or member of the administration. During these meetings, progress on IEP goals are reviewed and new IEP goals are developed. Recommendations are also made regarding the student’s needs and plans are developed to implement strategies for improving the student’s school performance. Parents are regularly informed of the student’s goals, academic progress, and transition plan.

Academic field trips and school outings are also scheduled to enhance instruction and promote positive social growth. Promotion and awards ceremonies are held quarterly and in June. At these events, students are recognized for their academic achievements during the course of their enrollment. Students who have been promoted to the next grade level also receive special recognition.

The program recognizes holidays and special events throughout the year. As part of the special activities program, staff members and students plan events such as assemblies with guest speakers or student presentations, demonstrations of student crafts and artwork, contests and competitive group projects, and philanthropic activities for community organizations.

Staff at the Foundation Learning Center also includes the school administrative team, consulting psychiatrists, certified special education teachers, licensed therapists, licensed speech/language pathologists, licensed occupational therapists, behavior management specialists, dedicated aides, program assistants, and other support staff.

Related Services: Special Education Services, Counseling, Behavioral Supports, Occupational Therapy, Speech and Language Therapy, Psychiatric Services, ABA Dedicated Aide Support.

Program Description: The Foundation School provides a highly specialized educational and therapeutic program for students identified with emotional disabilities, as well as those with other social emotional and learning challenges, preparing them to be lifelong learners. The vision of The Foundation Schools is that all students experience success. Our purpose is to inspire, uplift, and motivate our students to strive for a bright future and believe they can achieve their dreams.

The Foundation School provides a full continuum of educational services and therapeutic supports to meet the unique academic and emotional needs of each student. We primarily offer specialized classrooms to meet the needs of students who are emotionally disabled, but also serve other special education students with a history of social emotional and learning challenges that impact their school progress. We have specialized classrooms for students with intellectual disabilities and specialized classrooms for students with autism spectrum disorders. The comprehensive psycho-educational day program at The Foundation School has been carefully designed to meet the educational, psychiatric, psychological, and social needs for each student. The Common Core State Standards drive our instruction and prepare students for lifelong learning. The school curriculum includes all subjects required by the state and local school systems as well as a specialized career research and development programs of study. All state mandated assessments, including the PARCC assessments, DC Science Assessment, and MSAA assessment, are administered according to state guidelines. We work closely with students to make sure they are on target to receive their high school diploma at the completion of high school. Students can also receive a certificate of attendance, as an alternative to the high school diploma, when determined by the IEP team.
The Foundation School
(continued)

Career Development starts in grades K through 12 and is designed to facilitate grade level coordinated activities to ensure students explore and develop post-secondary plans.

In addition to our academic curriculum we offer an intensive behavior and therapeutic support program to meet each student's individual needs. The school-wide behavior management system includes a point and level progression system, incentives, and consequences. The behavior management system is built on the tenets of School Wide Positive Behavior Intervention Supports. Through the behavior management system and explicit social skills instruction, students are taught to demonstrate appropriate behavior and provided with opportunities to practice appropriate behavior. Individual and group counseling on a variety of topics is offered. The goal of school-based counseling is to help students be school ready and available for learning. Additional therapeutic services include: drug and alcohol education, prevention, and counseling, violence prevention, trauma-informed cognitive behavior therapy, anger management, social skills development, grief and loss, peer mediation, conflict resolution, and intensive crisis intervention. Case management services are provided by program therapists at The Foundation School in order to establish collaborative communication with each student's parent/guardian as well as the student's outpatient treatment providers or supports. Therapists also work with the student and parent on truancy concerns and attendance plans as needed. Our Foundation Links program works with students and parents to address attendance issues, prevent truancy, and assist family members with basic needs and supportive counseling.

Staff at the Foundation School also includes the school administrative team, consulting psychiatrists, certified special education teachers, licensed therapists, licensed speech/language pathologists, licensed occupational therapists, behavior management specialists, dedicated aides, program assistants, and other support staff.

Related services: Special Education Services, Individual and Group Counseling, Psychiatric and Counseling Services, Speech and Language Therapy, Occupational Therapy, Job Coaching Transition Services, and Dedicated Aide Support.

Program Description: The Frost School is a nonpublic special education day school serving students ages six to 21 with emotional and behavioral disabilities and autism spectrum disorders. The Frost School is a program of the Sheppard Pratt Health System and contains several specialized programs, each providing a supportive and structured environment integrating specialized academic instruction, counseling, transition services, and behavioral modification specific to each student population.

The Therapeutic Community and Lodge Programs serve high-school-aged, students utilizing a therapeutic community model. The model incorporates special education and integrated group and individual counseling, individualized academic and therapeutic support, family counseling, and psychiatric services conducted by special educators, licensed social workers, counselors, and psychologists. Students are taught communication skills, personal accountability, problem solving, conflict resolution, and relationship building skills through the daily group counseling sessions, individual counseling, and community meetings. Both program works primarily with students who have emotional and behavioral disabilities and high-functioning autism spectrum disorders. The Therapeutic Community and Lodge Programs are also appropriate for students with learning disabilities, speech and language impairments, mild intellectual disabilities, or attention deficit disorders whose problem solving, social, and communication skills impede their ability to access the curriculum in a general education
The Frost School
(continued)

setting. These programs offer small classes, related services, vocational training and internship opportunities, and transition services for students starting middle and high school.

**The Lower and Middle School Programs** offer students in grades one through eight a model that includes both self-contained and content-based classrooms. We utilize a combination of behavioral and therapeutic approaches in addition to specialized academic instruction by certified teachers. This model provides students with a structured and predictable learning environment. We utilize positive behavior supports, visual activity schedules; child directed and play based therapy, integrated sensory motor activities and techniques, family counseling, and individual and group counseling as appropriate, in addition to other related services.

**The Oakmont Secondary Program** offers a unique program for middle and high school students with autism spectrum disorder who are on a diploma track. Content area courses are taught by certified and experienced special education teachers with the support of trained educational assistants. Students in the Oakmont Secondary Program participate in daily social skills training, resource support, and related services. Individualized behavioral intervention programs are developed by a team that includes a behavioral psychologist, clinical social worker, behavior specialists, and special educators, and all students take part in a motivational system incorporating high levels of positive reinforcement.

**The Oakmont Primary Program** serves students ages six through 15 with autism spectrum disorder and other related disorders. Students are taught in highly structured, self-contained classrooms utilizing a variety of strategies including: discrete trial, direct instruction, play based instruction, motor skill development, sensory integration strategies, natural aided language stimulation, community based instruction, and positive behavioral support. Individualized behavior and academic plans are formulated by a team of certified teachers, licensed psychologists, behavior specialists, behavioral support staff, licensed speech and language pathologists, occupational therapists, educational assistants, and one-to-one assistants.

**Related Services**: Individual, Group, Family Counseling, Speech and Language Therapy, Occupational Therapy, Physical Therapy, Psychological Services, Psychiatry, School Nursing.

   10-month ( ) 11-month (X) 12-month (X) extended school year ( )
   4-week summer school ( ) 5-week summer school ( ) 6-week summer school ( )

Program Description: Gateway School, a program of HASA, provides an individualized, comprehensive education to our students with communication related disorders and/or autism to guide them to independence in the areas of communication, academics, social and life skills. The students are provided with a learning environment to meet their individualized learning style, ABA track, small group/classroom track, or the combination track. The ABA track provides students with maximum 1:1 support. Special educators and instructors implement the principles of applied behavior analysis and research-based strategies for skill acquisitions. Students in the ABA track spend a large part of their day in an intensive 1:1 instructional setting. Students in the ABA track participate in small groups in shorter duration that address English/language arts, mathematics, social studies, and science. The small group/classroom track prepares students for success in a typical classroom setting. Students are expected to demonstrate more independent skills and classroom behavior with the support of a special educator and an instructional assistant. Majority of the school day is spent in small group (7:2), with the flexibility to break into smaller units as needed. In the combination track, students spend a portion of the school day in the ABA track for skill acquisition and the remainder of the day in the small group/classroom track to foster pragmatic language, generalization of skills, and independence. All Gateway students participate in enrichment classes, recreation, art, music and library, as a group to promote social skills.

The educational program emphasizes on building language and communication skills to support the acquisition and retention of academic and social skills and the development of appropriate social behavior. Language experiences and direct instruction facilitate language, cognition, and academic readiness for preschool students. For school age students in Kindergarten through grade 8 or a non-graded program,
Gateway School  
(continued)

the curriculum incorporates language learning within the subject areas of English/language arts, mathematics, science, and social studies. The development of social and adaptive/life skills for school and community is fostered throughout the program for all students. The middle school students participate in instruction focusing on pre-vocational language acquisition while engaging in hands-on experience and exposure to various vocations within HASA. Gateway’s curriculum and school structure is intended to guide and support students to acquire independence.

**Related Services:** Speech-language pathology, applied behavior analysis, audiology, counseling, music therapy, nursing, occupational therapy, physical therapy, school health services, and psychological services.

Program Description: High Road Academy specializes in serving the educational, social, and emotional needs of students with Specific Learning Disabilities in grades three through twelve. The program offers personalized, interactive, multi-sensory instruction in reading, math, writing, and content areas. Each highly individualized student plan is designed with a focus on reaching the highest standards possible in keeping with the Maryland College and Career Readiness Standards. Students earn credits towards a Maryland High School Diploma. Students working towards a Certificate of Attendance are also accepted to High Road Academy. In addition to students with Specific Learning Disabilities, High Road Academy also serves students with Speech and Language Impairment, Other Health Impaired, Nonverbal LD, Asperger’s Disorder, as well as students with secondary Emotional Disability.

High Road Academy students are afforded a highly individualized, multi-sensory academic program based on careful assessment of strengths and needs. Pre- and post-test measures for word identification; word attack; vocabulary; comprehension; spelling; writing; math calculation; math problem solving; listening comprehension; receptive and expressive language; auditory processing; and memory provide the basis for instruction, materials, and intervention decisions. Primary emphasis is placed on intensive remedial reading programs, such as: Orton-Gillingham Based Programs (including The Wilson Program and SPIRE); Glass Analysis; Rewards; Morphographs; Software Programs: Fast forWord; Lexia; Brain Train; iReady; Read Naturally & Other Fluency Programs; Close Reading; Content Enhancement Strategies; FRAMING Routine; Unit Organizers; Visualizing & Verbalizing.

Related Services: Speech and language therapy, counseling, occupational therapy. In addition, High Road Academy employs three Reading support teachers for additional individualized instruction.

Program Description: High Road Upper School of Prince George’s County is approved by the Maryland State Department of Education as a nonpublic educational program, serving the instructional and behavioral needs of seriously emotionally disturbed adolescents in a supportive and structured environment.

The program is designed to focus on personalized academic, behavioral, and career development goals so that the student can return to a less restrictive setting. High Road School incorporates a variety of educational experiences and utilizes the community to provide the students with meaningful job related experiences. Parental participation is encouraged and integrated into the school setting.

Related Services: Individual and group counseling, family therapy, case management, transitional services, occupational therapy, speech/language therapy, educational assessment, psychological assessment, psychiatric consultation and behavior management.

Program Description: The Ivymount School is a non-profit, non-public, co-educational, special education and related services program which serves students with autism spectrum disorder, intellectual disability, multiple disabilities, other health impairment, specific learning disability, and speech or language impairment. Throughout the school, classroom models and instructional strategies are established to meet the individual needs of our students. Many of our students have multiple learning, social, and/or adaptive needs and require a program that includes and integrates academic, social and adaptive skills programming in classrooms with low student/teacher ratios. Students receive related services determined by their Individualized Education Program (IEP).

Ivymount School Programs

Elementary/Middle School
- Kindergarten through 8th grade
- Current classroom models
  - Multiple Learning Needs (MLN)
  - Model Asperger Program (MAP)
The Ivymount School
(continued)

Secondary School
- 9th through 12th grade and certificate track serving students ages 14-21
- Current classroom models
  - Multiple Learning Needs (MLN)
  - Model Asperger Program (MAP)
  - School to Work

Specialized Autism Services
- Serves students with autism and other developmental disabilities that require more intensive integrated services.
- Certificate track, ages 4-21
- Diploma Track, grades K-5

Project SEARCH
- Certificate track, ages 19-21

Across all of our programs, students receive therapeutic, academic, social and pragmatic skills instruction. As appropriate, community based instruction, recreational activities, career development and transition services are embedded to support students in achieving their highest level of independence. Evidence-based practices, including Applied Behavior Analysis, systematic teaching, and data based programming are utilized across language rich environments including the classroom, school, and community.

Many students have multiple learning needs and require a program that includes and integrates academic, social and pragmatic skills programming in the classroom with low student/teacher ratios. Universal Design and assistive technology support student learning to give students access to the general education curriculum.

The clinical services team works with students who demonstrate interfering behaviors by supporting student’s individual learning needs, conducting functional assessment, developing individualized behavior intervention plans, conducting staff training, and monitoring student progress. Art, music, adapted physical education, library, and technology are offered in all programs. Each student’s IEP determines the student’s level of participation in statewide assessments and the level of supports and modifications necessary to provide the student access to the general education curriculum of the local school system, and the Maryland College and Career Ready Standards. Program staff collaborates with families to generalize instruction to the home and community settings.

Ivymount School programs for students ages 18-21 are designed to allow students to match their abilities and interests with community job placements, leading to productive and independent futures. Students acquire pragmatic educational skills, basic and advanced social skills, positive work attitudes and constructive behaviors that will ensure their successful transitions.

At the time of graduation, students enrolled at Ivymount receive either a high school diploma or certificate of IEP completion as determined by their IEP.

Related Services: Speech and language therapy, occupational therapy, physical therapy, mental health counseling and audiology services are provided as specified in the student’s IEP.

Program Description:  The Jefferson School is a residential treatment center and special education school that provides therapeutic and educational services for youth ages 11-21 with emotional and behavioral disabilities. Located fifteen minutes outside Frederick, MD, the 30-acre school campus includes baseball, softball and soccer fields, a barn and rink for the Equine-Assisted Therapy Program. The remaining wooded property affords opportunities for hiking and horseback riding. The Jefferson School promotes a residential milieu and collaborative learning environment that provides compassionate clinical, special education, and prevocational services. As an outcome-oriented school, our treatment focuses heavily on Dialectical Behavior Therapy (DBT) both in the classroom and residential settings, as a way to teach our students effective and healthy behavior management skills.

The school has a full size gymnasium, a library/media center, greenhouse, visual and performing arts classrooms, a graphic arts lab, and wood shop. In addition, there are dining, recreation and health services, along with a fully equipped OT clinic that provides traditional OT services as well as sensory integration approaches. There are medical staff and psychiatrists available for medication management and psychiatric crisis management.

The residential units are single gender houses generally split by age. There is a special residential program for sexually reactive boys, and a school program focused on life skills designed for students pursuing a Certificate of Completion.

Related Services:  Individual and group psychotherapy, family therapy, social work services, speech therapy, occupational therapy including sensory integration approaches, educational assessment, psychiatric assessment/medication management, school health services, behavior management, and equine assisted psychotherapy services.

Program Description: The Jefferson School at Finan Center, located in Cumberland, Allegany County, is a collaboration between the Allegany County Board of Education and the Sheppard Pratt Health System. Special education and other mental health services are provided to special education students. Instructional areas, which are determined by each student’s IEP, may include communication skills, self-care, individualized academics, fine and gross motor skills, socialization skills, and recreation/leisure skills.

Our primary goal is to integrate students into the public school instructional program to the greatest extent appropriate. The school implements the Maryland State Curriculum and the Syracuse Community Reference-Curriculum Guide for Students with Moderate and Severe Disabilities. A general education program is available.

Related Services: Individual and group psychotherapy, family therapy, social work services, educational assessment, psychiatric assessment/medication management, therapeutic recreation services, school health services, behavior management, and intensive treatment services are available. Speech and language, occupational, physical, mobility and vision therapies and psychological assessment provided to Allegany County students through contracted service agreements with Allegany County Public Schools.

Length of School/Program Year:
10-month (X) 11-month (X) 12-month ( ) extended school year (X)
4-week summer school ( ) 5-week summer school ( ) 6-week summer school (X)

Program Description: The Katherine Thomas School serves students with moderate to severe language and learning disabilities, other health impairments, mild intellectual disabilities, and/or mild to moderate autism. Staff utilize auditory, visual, tactile and kinesthetic movement-oriented learning and infuse lessons and activities with developmentally appropriate and language-based experiences. Social skills development is addressed through all aspects of the student’s day. Art, music and drama classes are offered.

The Katherine Thomas School preschool program uses a developmental model and blends typical preschool activities -- social interactive play, experiential learning activities and daily language lessons -- with an intense emphasis on communication, interaction and problem solving. Our multidisciplinary team (including a special educator, teacher assistant, speech-language pathologist, occupational therapist, social worker and/or psychologist) work together to support maximum individualization and encourage excellent outcomes.

Both The Katherine Thomas School Lower/Middle School Program and the High School Program offer a safe, nurturing environment for each student’s emotional growth and educational development. The programs provide instruction in reading, oral and written expression and math, as well as the strategies needed for academic, social and post-graduation success. The positive, success-oriented curriculum supports students who, with specialized help transition to an educational or employment setting. Our
The Katherine Thomas School
(continued)

integrated, multidisciplinary classroom team includes a special educator, teacher assistant, speech-language pathologist, occupational therapist, social worker and administrator.

High school students may participate in opportunities to build leadership skills through activities such as the SGA and Peer Mediation programs. After school activities are available for athletic, social and homework support. The high school offers both diploma and certificate pathways.

Student Transition Readiness through Intensive Developmental Education (The STRIDE Program)

The STRIDE program is designed to meet the needs of lower middle school students in grades K–6 with moderate to severe language and learning disabilities, other health impairments, mild intellectual disabilities, and/or mild to moderate autism, who also display difficulties in other developmental areas, including significant challenges in perspective-taking, engagement, attention, regulation, group process and social interactions and require more intensive support to succeed academically and socially than in the KTS Lower Middle School Program. An interdisciplinary team serves the STRIDE classroom, consisting of a special education certified teacher, teacher assistant, speech-language pathologist, occupational therapist, physical therapist, and social worker. The goal for this transitional program is for students to successfully transfer into the KTS Lower Middle School Program or a less restrictive environment.

Excellence in Educational and Emotional Learning (The EXCEL Program)

The EXCEL program is designed to meet the needs of high school students in grades 9–12 (ages 14–21) with moderate to severe language and learning disabilities, other health impairments, mild intellectual disabilities, and/or mild to moderate autism, who also display difficulties in other developmental areas, including significant challenges in perspective-taking, engagement, attention, regulation, group process and social interactions, and require more intensive support to succeed academically and socially than in the KTS High School Program. An interdisciplinary team serves an EXCEL classroom, consisting of a special education certified teacher, teacher assistant, speech-language pathologist, occupational therapist, physical therapist, social worker, and psychologist. The goal for this transitional program is for students to successfully transfer into the KTS High School Program or a less restrictive environment.

The Boost Program:
Students in our Boost Program may exhibit interfering behaviors related to regulation, perspective taking, engagement, learning academic concepts, and social interaction that would require more supports than would be available in a KTS classroom. They may also need extra support with learning the academic concepts. The Boost Program will provide a lower teacher to student ratio and an interdisciplinary team designed to meet the individual needs of each student.

Program Description: The Kennedy Krieger School provides comprehensive educational and behavioral services to kindergarten through eighth grade students and is designed to provide effective preparation for students who, in the future, will be seeking either a diploma or a certificate at the high school level. The program is designed to meet the needs of a varied population of students. A best-practice, evidence-based, approach is used to implement curriculum, which focuses upon essential skills and aligns with Common Core State Standards and guided by the Maryland College and Career Ready standards. Students are provided instruction in the areas of: Language Arts; Mathematics; Social Studies; Science; Technology; Health; Social Skills; Music; Art and Physical Education. Students utilize an abundance of technology resources available within each classroom. These technologies include: interactive white boards; iPads and desktop computers. These proven and highly motivating devices serve to enhance learning, increase student participation, develop problem solving skills and prepare students for a society which is increasingly dependent upon the effective use of technology. Our program provides integrated related services that work together in a team-based collaborative approach. Staff use differentiation, accommodations, modifications, and a multi-sensory approach to implement the curriculum and to target individualized education plan (IEP) goals and objectives. The school utilizes both individualized behavior programming and a school-wide behavior management approach based in Positive Behavior Intervention Supports (PBIS), as well as Professional Crisis Management (PCM). Sensory strategies are integrated throughout the school environment and are individualized to meet students’ needs. The school is organized into Professional Learning Communities (PLCs).
Kennedy Krieger School: Fairmount Campus

(continued)

Each community is designed to meet the unique needs of a variety of learners. This model fosters a student-centered environment where shared decision making is used to examine our practices and improve our effectiveness. Below is a description of our three communities:

**Blue Community:**
The Blue Community is designed to meet the academic, social, and behavioral needs of learners who require explicit instruction and practice with learning and accessing coping skills and self-management skills. Additional support is provided in the acquisition and practice of executive functioning skills across the school environment. Providing a structured, but flexible environment that promotes independence, the Blue Community classrooms intertwine social skills and social skill interventions throughout the day, creating opportunities for students to clearly practice learned skills. Students’ learning styles may vary however most instruction occurs in small or whole group lesson settings. The students may rely on therapeutic relationships to work through, prevent and/or deescalate problem behaviors and/or upset.

**Green Community:**
The Green Community is designed to meet the academic, social, functional, and behavioral needs of learners who thrive on a highly structured and predictable environment. Green Community students do best with a consistent routine; one that is supported by visual supports and sensory strategies. The community promotes the mastery of functional and meaningful tasks and is focused on increasing engagement to tasks, adults, and peers. Social skills instruction is explicit and varied to meet the needs of the students. Green Community students require instruction presented through various, targeted methodologies including but not limited to: errorless learning, TEACCH, and discrete trial training. The total communication approach is used across the Green Community to support language acquisition and use. Through the use of fast-paced and engaging lessons designed to maintain attention and engagement, much of the instruction in the Green Community is occurring in 1:1 or small group settings, with whole group instruction being the ultimate goal.

**Yellow Community:**
The Yellow Community is designed to meet the unique learning needs of our youngest, active learners. Serving students Kindergarten through 2nd grade and placing an emphasis on learning to learn, the focus of this community is to provide a structured, routine-based environment in which play, movement, and explicit social skills instruction and opportunities are seamlessly integrated into the students’ typical academic day. Students’ learning styles are in the development stage and as such, students are provided with varied instructional models including 1:1, small group and whole group. Work is completed in short increments, with increments increasing as the students’ ability to remain on task, complete work, and manage frustrations increase. Students are provided opportunities to learn through curriculum and natural opportunities in the social environment.

**Related Services:** Speech/language Therapy, Occupational Therapy, Physical Therapy, Mental Health and Expressive Arts Therapies.

Program Description:  Kennedy Krieger High School is a comprehensive career and technology program providing instruction and clinical services. A best practice, evidence-based, approach is used to implement curriculum, which focuses on essential skills and aligns with national standards and guided by the Maryland College and Career-Ready Standards. Students graduate with a MSDE approved diploma or a certificate of completion. Students may also earn specific certifications in career areas. The focus of the Career Industry program is the preparation of students for employment and continued educational opportunities and training, using a model of five career clusters and partnering with local businesses. Students develop portfolios of their career cluster experiences, and have the opportunity to work in student run businesses at the school. Career clusters include: (1) Information Technology, (2) Hospitality and Tourism, (3) Retail and Consumer Services, (4) Construction/Manufacturing Trades and (5) Horticulture. A multidisciplinary team develops a continuum of services, allowing students to have options that can accommodate their academic, behavioral, or related service needs. Extracurricular and elective offerings include: Young Marines, Student Government, Intramural Sports, Yearbook, and Musical Theatre.

Related Services:  Therapy: Speech/language therapy, Occupational Therapy, Physical Therapy, Mental Health and Expressive Arts Therapies. Positive behavioral intervention supports are utilized to help shape those behaviors that promote student success at school. When approved through the IEP process, a program aide for individual assistance is also provide

Program Description: The LEAP Program offers a range of educational and therapeutic services for students with complex academic, communication, social and behavioral needs. Students work toward earning a Certificate of Completion. The program features:
  - An interdisciplinary approach to individualized programming which may include input from parents/students and utilizes professionals from the following disciplines: special education, speech-language pathology, occupational therapy, psychology, behavior resource, social work, expressive arts therapies (i.e., art and music), nursing, audiology, vocational education, physical therapy, and psychiatry. All school staff meets the MSDE certification requirements in their assigned fields.
  - A structure that facilitates communication among the team members who are implementing the curriculum and IEPs (i.e., internal team meetings occur on a regular basis).
  - An eclectic combination of intervention approaches/methods based on best practices, including but not limited to: TEACCH, Applied Behavior Analysis, Picture Exchange Communication Systems, sensory diets, community-based instruction, and vocational training.
  - Small classes (an average of 7 students) with a high staff to student ratio that provides 1:1 supports as needed or as indicated in IEPs.
  - Speech/Language services which focus on establishing functional language skills through the use of both low and high-tech augmentative communication systems, increasing vocalizations, and improving articulation and social language skills. Services emphasize independence in communication during curricular and community activities and support increased access to the curriculum.
Kennedy Krieger School: Greenspring Campus - LEAP Program

(continued)

- Occupational Therapy services which emphasize evaluation of sensory processing and development of strategies to assist students with self-regulation skills.
- Intensive behavioral supports including functional behavioral assessments, individualized behavior intervention plans, and safe crisis management procedures.
- Case management focusing on home-school collaboration and identification of community-based resources and supports for LEAP families.
- Programmatic mental health and expressive arts services which enhance academic, social, and emotional development.
- Opportunities to participate in off-site supported and/or sheltered employment.
- Activities which promote student wellness and physical development, including aquatics and fitness programs.

A student's week typically consists of applied academics, functional life skills, exposure to the general education curriculum, IEP driven related services, recreation/leisure activities, social skills training, community-based instruction, and work-based learning.

The physical classroom space is designed to provide an atmosphere that enables the child to better predict and utilize his/her environment through visual cues, multisensory supports, physical structure of the room, and consistent routines and schedules. Such supports aid in the de-escalation and shaping of student behaviors and will increase and maximize a student's availability for academic opportunities.

In order to provide consistent, integrated programming for the students, the educational staff work closely with all related service providers using an interdisciplinary approach. This approach allows staff members to communicate the areas of focus in each discipline to all members of the team. Student progress is more successfully facilitated when they are given the opportunity to generalize across a variety of settings. Regular classroom team meetings are held to discuss the on-going needs of each student.

The LEAP Program is committed to serving our students and their families to maximize their independence in the school, in the home, and in the community.

**Related Services:** Special education, vocational education, psychology, psychiatry, social work, speech-language pathology, occupational therapy, physical therapy, nursing, behavior resource, and expressive arts.

Program Description: The Montgomery County Campus provides educational services to students with ASD and other developmental disabilities. The program serves diploma seeking students through grade 8. High school students work toward earning a Certificate of Completion. The program features the following: An interdisciplinary approach to individualized programming with professionals from many disciplines including special education, speech language pathology, occupational therapy, behavior resource, social work, expressive arts therapies (i.e., art and music), nursing, vocational education, physical therapy, and psychiatry. School staff are required to meet the MSDE certification requirements in their assigned fields. "Best practice" and evidence-based teaching methods including, but not limited to TEACCH, Applied Behavior Analysis, discrete trial, incidental learning, augmented communication, picture exchange communication, sensory diets, vocational training, and program-based related services. A team and meeting structure that facilitates collaboration and communication among providers who are implementing the curriculum and IEPs.

- Opportunities to participate in structured community based instruction.
- Opportunities to participate in community based vocational training with specific training in the following vocational industries: Arts/Media/Communications, Office Clerical, Horticulture, Food/Service Retail, and Building Services.
- Opportunities for travel training.
- Transition to adulthood counseling, support, and services.
- Standards based instruction with a balance between access to the general education curriculum and life skills curriculum.
- Small classes (an average of 8 students) with a high staff to student ratio.
Kennedy Krieger School: Montgomery County Campus
(continued)

- Classroom physical space designed to minimize environmental distractions and sensory input and foster independence through predictable and structured rules and routines.
- Speech/Language services which focus on establishing functional language skills through verbal and/or nonverbal means (i.e. low tech and high tech devices), increasing receptive and expressive language abilities, improving articulation, and improving social language skills.
- Occupational Therapy services which emphasize evaluating and developing strategies in the areas of sensory processing, motor skills, and executive function skills.
- Mental Health Therapy services which emphasize development of social emotional regulation skills as well as social interaction skills.
- Intensive behavioral supports including functional behavioral assessments, individualized behavior intervention plans, and safe crisis management procedures.
- Access to positive behavior supports and interventions.
- Case management focusing on home-school collaboration and identification of community-based Resources.

Program Description: Kennedy Krieger at Central High School is designed to serve students with special needs in an environment that is integrated into a comprehensive high school. Support is provided in the Kennedy Krieger classrooms by providing small class sizes for academic subjects, modifications to curriculum, and accommodations in instruction designed to meet the individual needs of the student. A system of positive behavior management and supports is utilized to increase student success and promote adaptive behavior. Behavioral supports and academic instruction are augmented with a program focus that infuses the school day and all subjects with an emphasis on social skills. The program is staffed by an Educational Director, special educators, a teaching assistant, a speech/language pathologist, a behavior specialist, and social workers.

Program Description: Linwood School provides academic, communication-based, and vocational programming to students with autism spectrum disorders and related developmental disabilities. Students are taught utilizing a multi-disciplinary approach in small class sizes with a staff to student ratio of 1:2. Instruction is data driven based on IEPs, assessments and curricula that includes the Verbal Behavior Milestones Assessment and Placement (VB-MAPP), the Maryland College and Career Readiness Standards, the Syracuse Community-Referenced Curriculum Guide, The Assessment of Functional Living Skills (AFLS), and the TEACCH Transition Assessment Profile (TTAP). Linwood programming is designed to encourage communication using multiple modalities including verbal speech, gestures, communication devices, pictures, and sign language. Students are taught utilizing a variety of strategies including discrete trial instruction, small and large group instruction, sensory integration, community-based instruction and social skills training. A heavy emphasis is placed on generalization of learned skills across various environments and teaching replacement behaviors. The program utilizes Board Certified Behavior Analysts (BCBA), who write and train staff on individualize Behavior Intervention Plans, as well as class-wide and community-wide best practices. In order to provide a smaller learning environment for students, Linwood School is comprised of three communities. The Green Community is for our early learners, ages 5-13. This community focuses on building foundational academic skills across all content areas, communication skills, social skills, and activities of daily living. The Blue Community is for middle school students through age 21. Programming and instruction focuses on math, literacy, communication, social skills, and the development of vocational skills and vocational behaviors. Linwood’s vocational program provides career exploration through career clusters and job training including work experiences within the school and the community. The Orange Community is for high school students through age 21 focusing on independent living skills and activities of daily living.
Our Vocational Program, ages 14 through 21, focuses on transitioning individuals successfully into adult life.

Linwood is approved by MSDE to provide a community-based residential program for students with autism. Our program is licensed by the Department of Human Services and is an approved Autism Waiver provider.

**Program Description:**  
The Lourie Center School is an early intervention program that provides specialized education/therapeutic services for elementary age children who are challenged by emotional, social and behavioral difficulties interfering with their capacity to learn and to develop healthy relationships with adults and peers. These emotional disabilities can include attachment/separation problems, post-traumatic stress disorder, attention deficit/hyperactivity disorder, sensory and mood disorders, disruptive behavior and atypical development.

The school’s mission is to foster the development of emotionally healthy children who can participate in school, be successful in learning, and form satisfying relationships with adults and peers. The critical elements of the school’s approach include providing a therapeutic milieu, a strong academic curriculum, individualized instruction, and an integrated service delivery model. The therapeutic approach is relationship-based, since all early development takes place within the context of children’s primary relationships. The treatment team works with each student on expanding his ability to understand and integrate emotional experiences and sensory input so that his availability for learning is maximized. This includes developing more organized behavior and self-regulation, increasing cognitive and communication skills, and enhancing emotional connectedness, social relationships and a strong sense of self. The school operates five days per week for a total of 28 hours per week. The class size is up to 9 children with a 2 to 3 staff to student ratio. The school is approved through MSDE to serve children ages 4 through 12 years old and from Nursery-4 through 5th grade.

**Related Services:**  
Psychotherapy, consult psychiatry, parent counseling, speech and language therapy, occupational therapy, *physical therapy. *If warranted on student’s IEP.

Program Description:  The Mann Residential School is approved by the Maryland State Department of Education as a general and special education school. The Mann Residential School serves Residential Treatment Center and High Intensity Respite students and utilizes the MD State Curriculum for College and Career Readiness and other approved curricula for instruction in subject areas. All Teachers are certified by the Maryland State Department of Education in the content area in which they teach or in Special Education, or both. The program offers open schedule classes for students, encouraging self-mastery and empowerment, opportunity to complete subject matter to earn credits toward obtaining a high school diploma, providing resource and environmental supports to help each student be successful. For students with an IEP, the objectives and goals of the IEP form the instructional context for each class the student attends. The school is a Positive Behavior Intervention School (PBIS). In addition, Dialectical Behavior Therapy (DBT) principles and practices are incorporated into the school program and are integrated with the Residential Treatment Program.

Program Description: The Marcia D. Smith School is committed to the provision of quality educational services to students ages 11-21 with autism and intellectual disability. The program is a non-diploma, non-graded one with emphasis on community experiences, life skills, vocational training, and functional academics. The school provides day and residential special education services. Individuals are supported in accordance with their individual needs as outlined in their IEP. Each individual receives instruction designed to enable the student to realize his or her fullest potential to learn, communicate, develop social competency, and transition successfully into adult life in the community.

Marcia D. Smith School is a part of Community Support Services (CSS), a non-profit serving Montgomery County. CSS provides adult day services; adult and children's residential services; supported employment; autism waiver services (IISS, ALP, FC, TI, ITI); after-school program; and camp programs.

Related Services: Speech language, occupational therapy, physical therapy, psychology, psychiatric, medication management, art therapy, music therapy, nutrition consultation, nursing services, and other services as specified on the child's IEP.

Program Description: New Visions Academy of Baltimore educates and serves adolescent males in grades 6 through 12 who have emotional and behavioral disorders, and, who because of the nature and severity of their disability, cannot receive a free and appropriate public education (FAPE) in lesser restrictive educational environments. Through our psycho-educational systemic intervention model, we deliver a comprehensive program which integrates education (academic and vocational) and treatment (clinical and behavioral management) into a unified process that enhances learning. The Academy offers academic courses in English/language arts, social studies, mathematics, science, technology education and special subject areas. The Career Services Training Center provides individualized competency based programs that integrate vocational and academic education. Courses in graphic communication, computer science/systems, automotive mechanics, and construction methods (carpentry and masonry) are provided; hands-on training and work/study components are offered; vocational and pre-employment assessments are provided for all students; school-to-work options are available, offering both advanced and remedial work experiences developed to fit students’ special needs. The Clinical Program provides individual, group therapy and family therapy. The Behavioral Management Program provides crisis intervention and behavioral counseling services. All students participate in the behavior management system that monitors daily progress and performance. As students advance through the program, they prepare for the opportunity to return to the public school setting.

Related Services: Individual and group psychotherapy, family therapy, social work services, case management services, psychiatric/psychological assessment and consultation, transportation assistance, family outreach, on-call services, occupational therapy, speech and language services, transition services, vocational assessment, pre-employment training and employment opportunities.

Program Description:  Oak Hill House is a group home whose primary goal is to provide youth with a safe and supportive environment that will prepare them to successfully reenter the community and continue to function as active and responsible members of the community. The therapeutic approach is based on the Reality Therapy model with emphasis on current behavior. Residents are confronted with their problematic behaviors and are expected to develop responsibly for their actions. The goals of the program include improving self-esteem, modifying negative behavior, improving interpersonal skills, and improving decision making. Oak Hill House also operates a TYPE I nonpublic school on grounds. The overall program goals are incorporated into the school program in addition to learning to function successfully in school. Residents earn the privilege to transition to public school based on their behavioral and academic progress. While the Oak Hill House School is not special education accredited, residents' Individualized Education Programs (IEP’s) can be implemented at the request of the public school. The public school provides screening, evaluations, consultation, and monitoring for special education students.

Related Services:  All residents participate in individual and group therapy. Family therapy is provided bi-monthly. All residents and their families participate in the Therapeutic Family Weekend which is currently offered three times each year.

- 6-week summer school ( )

Program Description: The Pathways School-Anne Arundel provides integrated academic, therapeutic, and vocational services through community-based programming. Pathways emphasizes the use of restorative practices and proactive therapeutic intervention and does not utilize restraints or seclusion. The cornerstone of the program is allowing students who have not been successful in traditional school-based settings to receive individualized delivery of service within community settings. Individual and group therapy sessions, as well as, small academic group activities are scheduled for the Annapolis school site. Individual instruction, experiential learning opportunities, and career exploration are implemented in a variety of locations in the communities surrounding the school and students’ homes, including public libraries, community center, shopping centers and workplaces. Placement in this program offers students the opportunity to engage in their education within an individually tailored environment and gives them the option to earn a Maryland High School Diploma, earn a High School Certificate, or prepare to take the GED. The program model allows students who have not been successful in traditional school-based settings the opportunity to complete their secondary education. The extended school year program offers a credit recovery option.

Related Services: Individual and group therapy, family support services, social skills counseling, individualized behavior management, speech therapy, and occupational therapy.

Program Description: The Pathways School–Re-Entry at DuVal program provides academic, therapeutic and transition services to high school students in order to facilitate the student’s participation in the mainstream classrooms and activities in Prince George’s County’s DuVal High School. Eligible students will be identified as needing intensive special education and therapeutic services in order to mainstream successfully in public school classes and earn a Maryland high school diploma. The program offers high school course offerings based on the public high school curriculum. Through instruction and therapeutic services, the staff teaches social skills, study skills and academic subjects to help students meet graduation requirements. Students are also afforded the opportunity to participate in a wide range of extra-curricular activities with non-disabled peers. Students determined to be eligible for extended school year may attend an ESY program at another Pathways school and have an option to participate in Pathways’ credit recovery ESY program.

Program Description: The Pathways School - Edgewood integrates academic, therapeutic, and vocational services through school-based and community-based programming. Pathways emphasizes the use of restorative practices and proactive therapeutic intervention and does not utilize restraints or seclusion. Enrollment in the school-based or the community-based program is made based on the specific needs of each student. The school-based program offers a more traditional classroom environment with opportunities to engage in work and educational experiences in the community. Students in the community-based program receive programming within a variety of other settings which facilitate the students engaging in their learning. The course offerings through both program models allow students to earn a Maryland or District of Columbia High School Diploma or Certificate of Program Completion. This program offers credit courses through individual and small group instruction following county curriculum. Students are prepared to transition into the next phase of their lives. For some, this may be to prepare for a less restrictive secondary school placement or to take the GED test in the future, and for others, it may be to prepare for post-secondary education, career training, or the world of work. Students determined to be eligible for extended school year have an option to participate in Pathways' credit recovery ESY program.

Program Description: The Pathways School-Horizons provides integrated academic and therapeutic services in a supportive, structured environment which concentrates on increasing the student’s realization of personal, behavioral, and academic goals. Pathways emphasizes the use of restorative practices and proactive therapeutic intervention and does not utilize restraints or seclusion. The educational environment, using therapeutic support, promotes learning at the student’s ability level. The curriculum focuses on courses required for graduation. A specialized reading and writing program is provided to students based on their needs. The academic program is designed to meet the requirements of students’ IEP’s and to allow students to complete their secondary education by earning a Maryland or District of Columbia high school diploma or certificate. In addition to the academic instruction and individual and group therapy, a therapeutic school milieu is provided as a means to foster the development of stable and appropriate social skills and relationships. A structured behavior management system is utilized throughout the school program. Transition support services include experiential learning activities, career exploration, interest inventories, job development, job coaching and job maintenance. Students determined to be eligible for extended school year have an option to participate in Pathways’ credit recovery ESY program.

Program Description: Phillips School - Laurel is a 10 month day program that offers special education and therapeutic services to elementary, middle and high school students who have such severe emotional, learning and/or behavioral disabilities that they cannot function effectively in a general education environment. The goal for all students is to improve academic skills and modify behavior in order to successfully transition. Academic instruction and related services are provided according to each student’s Individualized Education Program (IEP). Instruction and therapy take place in individual or group settings. The high school offers both credit and noncredit courses based on a student’s individual needs. Credit courses prepare students to earn a high school diploma. Phillips offers on and off campus work experiences to prepare for post-secondary success. A culinary arts/urban agriculture program offers opportunities for training and industry certification.

Program Description:  The Ridge School of Montgomery County offers Type I full and partial day special education services for students with emotional disabilities, specific learning disabilities, multiple disabilities, and other health impairments. We provide educational, clinical, and behavioral services for students in grades 6 through 8 and 9 through 12. The school's vision is that our students will overcome all obstacles on their path to freedom and independence. To that end, teachers strive to create a therapeutic learning environment that is based on the belief that all students can learn in classrooms that promote respect, scholarship, integrity, and physical and emotional safety. Classroom instruction is based on Common Core State Standards and is designed to prepare students for the PARCC Assessments. Any grades or credits earned by students while at the Ridge School are directly transferable to their receiving school upon discharge from the program. Clinical and behavior staff support students as they reflect on behaviors which have interfered with their school success and prevented them from maintaining healthy relationships with peers and adults. We utilize the Restorative Justice Model of school discipline which provides a variety of ways for students to repair harm done prior to the need for more serious consequences.

Our psychoeducational services include: individual and group counseling, special education and clinical services through the implementation of each student's Individualized Education Program (IEP), behavior management and crisis intervention, career education and transition planning.

Program Description: St. Elizabeth School graduates students who are successful at home, in the workforce, and in the community. SES provides a comprehensive 11-month coeducational program emphasizing individualized academic instruction, social/emotional development, functional life skills, and vocational training. Upon completion of the educational program, students earn a High School Diploma or a Certificate of Completion from their local school system.

The academic program at St. Elizabeth School is highly individualized, uses researched-based reading and math programs, and encourages active participation by students of all levels of ability. St. Elizabeth School has a diversified and robust work-based learning program, extensive work and training sites in the community, and transition services to guide families and students to adult service agencies after graduation. The school encourages students to experience a variety of placements in real-world situations and provides additional self-advocacy training. SES promotes social and emotional development through group and individual therapy, and uses the school-wide Positive Behavioral Interventions and Supports (PBIS) system to encourage prosocial behavior. Full-time nurses and a consulting psychiatrist are on staff to assist with medication management. Students participate in a wide variety of extracurricular activities during and after school, including weekends.

Related Services: Related service personnel actively team with academic staff to provide integrated and effective services including: individual and group counseling, speech-language therapy, physical therapy, occupational therapy, nursing services, psychiatric consultation, and assistive technology.

Program Description: In addition to its residential program, the Maryland Salem Children’s Trust provides a nonpublic educational program, the Salem School, which is approved by the Maryland State Department of Education. The school serves two different populations of students.

Salem School’s Transition Program provides a continuation of instruction for male and female students, grades 1-12, between the ages of five and twenty-one. Although students with special education needs may be placed in this program, Salem’s Transition Program is not a special education program.

Salem School's Full-day Special Education Program provides special education and related services to male and female students, grades 2-11, between the ages of six and twenty-one. Students accepted into this program include those diagnosed as seriously emotionally disabled, learning disabled, intellectually impaired, or multi-handicapped. These students have an Individualized Educational Program (IEP) developed for them using grade appropriate curriculum and materials. Salem School will not accept students diagnosed as severely intellectually impaired, deaf, blind, or severely orthopedically impaired.

Program Description: The Shafer Center is a mixed grade/mixed age, co-educational program, for children ages 18 months - 13 years old. The program has an enrollment capacity of 80 children and accepts children on the autism spectrum, emotional disabilities, mental retardation, multiple disabilities, specific learning disabilities, speech or language impairment, sensory impairments and developmental delay. TheShafer Center provides five mixed grade/mixed age classroom programs; Imagine, Believe 1, Believe 2, Believe 3, Dream, Envisions Inspire. Children are grouped in classes by skill level. Each class is taught by a certified special educator and classes are co-taught by a speech-language pathologist. We feature small class size and full and half day classes. Through our resource center, children may combine attendance in a classroom with one-on-one applied behavior analysis (verbal behavior), occupational therapy and speech therapy. We have 5 board certified behavior analyst on staff. (BCBA)

Program Description: Shorehaven School provides a 220 day nonpublic special education day program for students identified as having autism, intellectual and/or multiple disabilities with varying behavioral intensities. The program focuses on the academic, vocational, behavioral and social development. Curriculum addresses academics and introductory vocational experiences. Individualized education and behavior improvement programs are developed to meet the students’ individual needs. Residential students live in community-based group homes, located in Chesapeake City and Elkton, which provide 24-hour supervision of five or six individuals per home. Independent living skills, leisure skill development and opportunities for community engagement are the focus of individual programs that are implemented in the residence. Each program includes the choices and preferences of the individual.

Program Description:  The Silver Oak Academy (SOA) will provide on-site educational services for residential placements referred by the Maryland Department of Juvenile Services. These students will be males, ranging in age from 14 to 19 and have a variety of criminal backgrounds, multiple placements, assaultive and running away behaviors as well as learning disabilities and emotional disabilities. Most of the students will have a history of failure, low achievement in previous school settings and more serious behaviors including suspension and expulsion. The purpose of the SOA is to provide an educational experience that will challenge these young men to realize their full potential by exposing them to a full range of high school general education courses as well as special education services where needed. SOA believes that these young men are capable of learning, gaining core academic skills and demonstrating educational achievement that could lead to a high school diploma, successful passage of the GED or return to mainstream high schools. In cooperation with Rite of Passage, the residential licensee, SOA will provide a normalized high school environment which emphasizes attributes of the Positive Youth Development Model as espoused by Dr. Jeffery Butts. ROP has treated and educated almost 20,000 over the past 30 years. ROP believes a combination of academic schooling, vocational training, interscholastic activities and competition as well as effective treatment approaches will change these young men to become productive members of society.

Related services:  Will be provided by contract psychiatrist, psychologist and speech therapist; FTE Licensed Clinical Professional Counselor, Registered Nurse on staff.

Program Description: The Strawbridge School is a Type I special education program with Pre-GED and GED preparatory, as well as a Type III transitional program. The Strawbridge School serves students in both day and residential programs through a 10-month program with Extended School Year (ESY) during the summer and is approved by the Maryland State Department of Education. Several programs offer varying levels of supports to meet the unique needs of each student and focus on the behavioral, academic, social/emotional, and vocational needs of each child. Vocational programs include culinary, horticulture, and automotive. The Strawbridge School serves preschool through high school students designated with Emotional Disability, Autism, Other Health Impairment, Intellectual Disability, and Specific Learning Disability. The school setting is intentionally small and nurturing to foster a successful educational experience. Using principles of the Trauma Informed Care approach, the program is designed to integrate academic, behavioral, clinical, and vocational goals to prepare students for transition to a less restrictive setting or to complete their school career in a supportive setting. Upon completion of the educational program, students earn a High School Diploma or a Certificate of Completion from their local school system.

  10-month ( ) 11-month ( ) 12-month (X) extended school year ( )
  4-week summer school ( ) 5-week summer school ( ) 6-week summer school ( )

Program Description: The purpose of The Trellis School is to systematically address skills using the principles of Applied Behavior Analysis to cultivate success in school and prepare students for meaningful and independent living in adulthood. Data is tracked across all learning domains and is utilized to develop individualized programming for each student.

Preschool/Elementary
The purpose of the school’s educational program in the preschool and elementary grades is to nurture strong foundational communication, learner readiness, academic, social, and play skills. Students are engaged in child-led, instructor directed learning activities in natural play environments as well as in structured, seated work sessions and groups, as appropriate to their age and ability levels.

For preschool learners, the majority of their day is spent in 1:1 instruction devoted to natural environment teaching (NET) and intensive teaching time (ITT). They also participate in small groups that address literacy, mathematics, and physical education. Daily living skills, including toilet training if needed, are embedded within the school day programming.

Primary students (Grades K-2) increase their participation in group instruction to also include social studies and science and begin participating in independent work sessions. Intermediate students (Grades 3-5) spend longer durations in group instruction, 1:1 intensive teaching sessions at a table, and independent work sessions. Intermediate students also contribute to their school community by completing classroom jobs. Community exploration is supported in elementary students through school activities and field trips.
The Trellis School
(continued)

Middle
The purpose of the school’s educational program in the middle school (Grades 6-8) is to develop academic, communication, and social skills. Students participate in group instruction that addresses language arts, mathematics, social studies, science, and physical education. Daily living skills and prevocational skills are embedded within the school day programming. Students interests are incorporated into instructional experiences and leisure development opportunities. During community based instruction (CBI), middle school students work on social skills, independent navigation, and generalization of communication skills in the community. An increase in independence is emphasized as students take more responsibility for their daily needs (i.e. lunch preparation, independent navigation of the school building, hygiene routines, self-advocacy) and for the needs of their school community (i.e. school wide jobs).

High School
The purpose of the school’s educational program in the high school (Grades 9-10) is to develop real life application skills through academic, pre-vocational and independent living skill experiences. Students participate in 1:1 and small group instruction that addresses reading, writing, and mathematics skills that prepare them for independent living. Communication and social skills are embedded within programming, as both of these areas are imperative for gaining independence and access to vocational opportunities. Student’s interests and abilities are incorporated into individualized pre-vocational and vocational activities that occur throughout the school building and in community settings.

Program Description:  The program is designed to meet the cognitive and affective educational needs of children with emotional disabilities, multiple disabilities and specific learning disabilities including children who have experienced trauma. The middle school is designed to provide a structured environment where older students can experience both self-contained and transitional classroom settings. Each student receives instruction aligned with the State standards including reading, mathematics, language arts, science, social studies, music, art, health and pre-vocational education.

A wide range of clinical support services, including psychiatric services, is available as part of the school program. Individual, group and family therapy services are offered as is clinically indicated. Parents are key members of the treatment team and are also encouraged to be involved in all aspects of the school program as well as in the many educational and recreational activities planned specifically for parents/families.

A short term (60-90 day) crisis stabilization – diagnostic program is also a component of the program. Clinical and educational services are fully integrated into this comprehensive program. The St. Vincent’s Villa Residential Treatment Center is located on the same campus and eligible and LSS approved residents are able to attend the school program.

Related Services:  Psychiatry, Individual, group and family, occupational, and speech/language therapy; parent counseling and support groups, case management, advocacy, respite care, and linkage to in-home intervention services; diagnostic/prescriptive teaching, career development education, physical education, art, music, health and instructional technology, affective education including human growth and development, conflict resolution and peer mediation training, social skills development.

Program Description: The Diagnostic Prescriptive Program is a non-public, educational program, approved under COMAR13A.09.10 - educational programs in non-public schools and child care and treatment facilities. It provides a transitional, instructional program not to exceed an average of 60 school days to students who are placed in The Diagnostic Units at St. Vincent’s Villa, a residential program licensed by the Maryland Department of Human Resources. The educational program is vital to the program’s overall mission of providing a structured and supportive environment to address developmental, psychological, social, or behavioral issues.

The Diagnostic Prescriptive Program provides a comprehensive assessment of students’ strengths and weaknesses as well as a specific plan for remediation of a student’s assessed deficits. Additional services provided include: individual, family, and group therapy, psychological and educational testing, psychiatric services, health services and speech and language services. The person responsible for overseeing the daily operation of the educational program is the Educational Director/Program Coordinator.

Related Services: A Diagnostic/Prescriptive teacher who provides educational testing, a psychologist who provides psychological testing, the school placement coordinator who provides liaison with the student’s next educational placement, and a speech and language pathologist who provides an initial screening to all students referred by the diagnostic prescriptive teachers. In addition, a certified special education teacher and instructional aides assist with academic and behavioral issues in the classroom. The school is located within the St. Vincent’s Villa building adjacent to the Diagnostic Unit.

Program Description: The Village Academy of Maryland is a coed non-public special education school. The purpose of The Village Academy of Maryland is to educate adolescents diagnosed with a disability who are unable to remain within the mainstream public education system. Our program is driven by each student’s Individual Education Program (IEP), as established in the IEP process. The school serves up to seventy (72) students, ages 14 through 22 enrolled in grades 9-12. The school offers 9th through 12th grade courses. Grades 9-12 receive instruction in English, Mathematics, Social Studies, Science, Health/Physical Education, Transitional Services, and Fine Arts. The Village Academy of Maryland also offers classes in the following career academy areas: Automotive, Technology Education/Computer Technology, Barbering, Cosmetology, and Carpentry/Construction Methods. The Village Academy of Maryland does not discriminate in its admission practices on the basis of race, color, religion, or ethnic origin.

Related Services: Psychological and educational assessments, medical services, psycho educational testing, individual, and group counseling, speech and language therapy, occupational therapy, dedicated aide services offered per the IEP requirement, behavior management, parent counseling and training and courtesy transportation.

- 6-week summer school ( )

Program Description: The Woodbourne School is approved by MSDE as a TYPE I full day and partial day Special Education and related services program for students with emotional disabilities and intellectual disabilities in an Elementary School (Grades 6 through 8) and a Secondary School (Grades 9 through 12); a TYPE I General Education program for students in an Elementary School (Grades 6 through 8) and a Secondary School (Grades 9 through 12); and a Pre-GED TESTS Preparation Program. The school is in operation 215 days per year. The goal of the Woodbourne School is to prepare students for the return to their home communities and neighborhood schools.

Woodbourne has certified staff in special education and the specific content areas. Components of the school program include: diagnostic and prescriptive instruction, Maryland standardized testing, educational assessments, transition services, behavior treatment services, psychiatric services, nursing and health services, crisis intervention services, speech and language services, after school programming and integrated therapeutic services. Students earn credits toward the completion of requirements necessary to earn a Maryland State High School Diploma.

We are transforming our school culture through the Restorative Healing Model which includes Aggression Replacement Training, Community Restorative Justice and Trauma Treatment.

Related Services: Psychological and educational assessments, medical services, psycho educational testing, therapeutic recreation, individual, group and family counseling, speech and language therapy, one to one classroom aide offered per the IEP requirement, behavior management, intensive treatment services, transportation, and meals for students who commute.

Program Description: Youth in Transition (YIT) is a full day middle and secondary program serving students pursuing a high school diploma or certificate of completion. YIT is committed to an individualized approach where the unique needs of all students are considered paramount. YIT provides comprehensive academic and clinical services. YIT also offers outstanding vocational experiences in areas such as Culinary Arts and Automotive. Furthermore, Youth in Transition offers a partnership with The Community College of Baltimore County to offer Vocational Certification courses to students. These vocational opportunities allow students to gain practical vocational experiences while completing the necessary requirements in their program of study.

Related Services: Speech and language therapy, occupational therapy, physical therapy, and counseling.

Program Description: The Auburn School’s mission is to grow the social and academic potential of birth students with social and communication challenges. We offer a dynamic educational program for intellectually curious students with challenges in the areas of communication, socialization, pragmatic language, and organization. Our program is appropriate for students who can learn successfully and appropriately in a small classroom setting. Auburn’s program simultaneously supports the development of academic skills, social competency and pragmatic language in an engaging educational environment. Auburn’s program is designed for students who can benefit from these supports, including, but not limited to, students who are diagnosed with Asperger’s Syndrome (ASD), PDD-NOS, Nonverbal Learning Disorder (VLD) or Attention Deficit Hyperactivity Disorder (ADHD).

Related Services: Speech, OT and behavior support are integrated in the Auburn Model and provided throughout the day in the classroom for all students. Additional services for speech, OT, Behavior and learning disabilities are available for an additional fee.

Program Description: JEWELS School enables children with developmental disabilities to be educated alongside typically developing peers in their community. Children receive the most beneficial academic, social, and life skills necessary for future success in a loving and supportive setting. JEWELS provides a strong school program as well as a pediatric therapy center, enabling children with developmental disabilities and/or developmental delays to have all their educational and therapy needs met in one location. Our success is achieved through small classes, custom-tailored curricula, typically developing peer models, and all with lots of love.

APPENDIX

Additional Resources
Federal and state laws require that children with disabilities receive a “free, appropriate public education” (FAPE). These materials provide an introduction to the process of obtaining services for your child. Most special education provided in public schools is the result of the Individuals with Disabilities Education Improvement Act (commonly referred to as the IDEA), a section of the U.S. Code at 20 U.S.C. § 1400. There are federal regulations derived from the IDEA included in the Code of Federal Regulations. State regulations applying to Maryland are in the Code of Maryland Regulations, or COMAR. Some special education services and accommodations can also be provided under 29 U.S.C. § 794 (commonly called Section 504 of the Rehabilitation Act of 1973, or just Section 504). Federal regulations for Section 504 provide that public school systems “shall provide a free appropriate public education to each qualified handicapped person who is in the recipient’s jurisdiction, regardless of the nature or severity of the person’s handicap.”

What is a “free, appropriate public education”? “Free, appropriate public education” (FAPE) is a legal term. It means that the education is provided at no charge to the parents, meets the requirements of federal and state law, and is in accordance with an individualized education program (IEP) that has been written specifically for your child. IDEA states that a FAPE should be designed to “meet [your child’s] unique needs and prepare [the child] for further education, employment, and independent living.” Reviewing your child’s education with this standard in mind can help you determine whether your child is receiving FAPE.

What should I do if I think my child has a disability? If your child is currently in public school, begin by telling the child’s teacher that you think she has a disability and needs special education. Write a follow up letter to the teacher and the principal confirming your conversation and asking for an IEP Team Meeting. The school will need to convene an IEP Team Meeting to consider whether your child is eligible for services. If your child is in private school or does not yet attend school, contact your county’s Child Find office. You can get the telephone number for Child Find through your county’s board of education or your local public school.

Important points to remember:

- After you talk to your child’s public school teacher, follow up with a letter saying that you believe your child has a disability and you want her to be evaluated. Send the letter to the principal of your child’s school. Make sure you date the letter, and keep a copy.
- The school will convene an IEP Team Meeting to consider your child’s needs and develop an evaluation plan. You will receive 10 days’ written notice of the meeting, unless you agree to have a meeting sooner. If the time and date of the meeting are not convenient for you, you have the right to have the meeting rescheduled.
- At your first IEP Team Meeting, the school should give you a copy of the “Procedural Safeguards and Parental Rights” booklet. That booklet contains specific information about your rights, including procedures for requesting a Due Process Hearing or filing a complaint with the Maryland State Department of Education.
- As a parent or guardian, you are an equal member of your child’s IEP team, along with your child’s teacher and other school personnel. You have the right to bring a lawyer to the
meeting. You have the right to invite “persons with knowledge or special expertise” to participate in the IEP team regarding your child. For example, if your child is receiving private speech therapy, you can and should invite the therapist to attend the IEP meeting.

- **Once you have signed permission for an initial evaluation, the school has 60 calendar days to complete the evaluation and write reports.** Follow up with the principal as soon as possible to make sure that an IEP Team meeting is scheduled to review the evaluations. At the IEP meeting to review the evaluation results, the IEP Team will determine whether your child has a disability and is eligible for special education.

- **The school is required to give you copies of all evaluation reports, draft IEPs or any other documents the team will discuss at least 5 school business days before the meeting so that you have a chance to review them.** The school must provide these copies except in extenuating circumstances, such as a death in the family, a personal emergency or a natural disaster.

- **In addition, the school is required by law to provide copies of the IEP no more than 5 school business days after the meeting – either the finalized IEP, or a draft IEP if the team did not complete development of the IEP.**

**How does the public school system make placement decisions for students with disabilities?**

Once the IEP team determines that your child is eligible for special education, it has 30 days to develop an IEP - the plan that will determine your child’s placement.

The IEP includes information about your child’s current levels of performance in academic and other areas related to her disability (for example, social skills or speech and language), appropriate goals and objectives for each area (for example, what reading or writing skills will they help your child acquire), and information about the accommodations, modifications, services, and supports that will be provided to help the child achieve her goals and objectives. As a parent or guardian, you are an equal member of the IEP team, and you will participate in the process of developing the IEP.

In 2017, the Maryland General Assembly passed a new law, which took effect on July 1, 2017 and requires school systems to get parental consent before implementing certain changes to a child’s IEP. The new law requires school systems to get affirmative consent from parents before:

- Changing a student from diploma track to certificate track;
- Changing the IEP so that the student participates in alternative assessments (e.g., the Alt-MSA rather than PARCC or HSA testing); and
- Including restraint or seclusion on the student’s IEP to address behavior.

**The IEP is written to fit the child, not the school.** The IEP should be based on your child’s unique strengths and needs, which have been identified through the evaluation process. Accommodations, modifications, services, and supports are determined based on what your child needs to achieve her goals and objectives, not what services are available at the school. For example, if your child needs two hours a week of speech and language therapy, the IEP must provide for that two hours a week, even if your school’s speech and language pathologist does not have an extra two hours in her schedule. If your child needs smaller classes in order to be successful, that must be included in the IEP, even if smaller classes are not available at your child’s school.

**The IEP determines the placement.** Once an IEP has been written to fit the unique needs of your child, the team must determine where the IEP can be implemented. By law, your child must be placed in the least restrictive environment (LRE) that can meet his needs. This means that if possible, your child must be accommodated in the school he would attend if he did not have disabilities. If that is not possible, the child’s placement must be as much like the regular school as possible. To the maximum extent appropriate, children with disabilities must be integrated into the same classrooms and programs that are attended by children who do not have disabilities.
First, the IEP team will look at your “home school,” the school your child would attend if she did not have disabilities. If the IEP can be implemented at the home school with the services that are currently available, the process ends there. If the home school does not have the services your child needs, the team must consider whether changes can be made to make the school appropriate. For example, if your child needs speech/language therapy and the school’s speech/language pathologist does not have time in her schedule, another speech/language pathologist can be brought in. An additional teacher or aide might be assigned to your child’s classroom to give him extra help.

If the home school cannot meet your child’s needs, even with modifications, the team must consider whether there is another public school in your county that can meet your child’s needs. The IEP team should include a representative from your county’s central Office of Special Education who is knowledgeable about the different programs in your county. Sometimes the IEP is shared with someone in the central office who makes a recommendation about placement.

If there is no public school available that can meet your child’s needs, the school system can choose to place your child in a private school for children with disabilities (called a “nonpublic” school). Decisions about nonpublic placements are often made at a separate Central IEP Team meeting, which you will be invited to attend. School systems are sometimes reluctant to place a child in a nonpublic school, in part because often all of the children who attend the nonpublic school have disabilities, and the students generally do not have the opportunity to interact with children who do not have disabilities. However, some children need intensive, specialized services that only a nonpublic placement can provide, and the child’s needs are ultimately what determine the placement.

What should I do if I don’t think the public school placement can meet my child’s needs?
First, tell the IEP team. Often, changes can be made that will make the public placement work. Additional staff can be added. Staff may need specific training in order to meet your child’s needs. Assistive technology devices can be provided. If you have had your child evaluated privately, bringing those outside professionals to an IEP meeting to talk to the team may help.

If, after working with the IEP team, you still disagree about the appropriate placement for your child, you can request mediation or a due process hearing. In mediation, you and school system representatives will talk to a mediator and try to work out a solution. If you file for a due process hearing, the school system is required first to convene a resolution session, a meeting with school staff so that the school system has the opportunity to resolve the basis of the dispute before proceeding to a full hearing. If you attend a resolution session without an attorney, then the school system cannot bring their attorney to the resolution session either. A due process hearing is like a trial, with an Administrative Law Judge presiding. You can retain an attorney to represent you at the mediation, resolution session or hearing. The Administrative Law Judge can order the school system to provide particular services or a specific placement to your child, or she can order the school system to hold another IEP meeting to reconsider your child’s situation. Either the parents or the school system can appeal due process hearing decisions to state or federal court.

Unilateral placements and important legal notice requirements: Sometimes, parents choose to place their child in a nonpublic school without the agreement of the IEP team, and then ask the public school system to reimburse them for the cost. This is called a “unilateral placement.” If you choose to make a unilateral placement, you must give the school system written notice of your decision. This should be in the form of a signed, dated letter to your school’s principal (or to the chairperson of your IEP team if your child is not enrolled in public school) stating that you are rejecting the school system’s proposed placement and intend to enroll your child in a specific non-public school at public expense. This “notice letter” must include the reasons you don’t think the placement offered by the public school system is appropriate and asking the local school system to pay for the private placement including tuition, transportation and related services. It is also helpful to give reasons why you believe the nonpublic school is appropriate for your child. The school system must receive your letter at least 10
school business days before you remove your child from public school. Instead of writing a letter, you
can also give notice orally at the last IEP team you attend before you remove your child from public
school. The oral notice must include the same information and requests that are included in a written
notice. Make sure your notice statement is included in the written summary of the meeting.

The law requires public school systems to place a child in a separate, nonpublic school if the public
school cannot meet the child’s needs and enable the child to learn.

**Timelines for the IEP Process**

“Promptly”: time to request parental consent for evaluation after receiving a referral
90 days: time to develop or revise an IEP after receiving parental consent for evaluation
60 days: time to complete initial evaluation after receiving parental consent
30 days: time to develop an IEP after an evaluation is complete
30 days: as of July 1, 2019, time for a school system to respond when parents disagree with a school
evaluation and request an “Independent Education Evaluation.” If the school system refuses to fund the
independent evaluation, it must file a due process hearing request within 60 days of the parents' request.
“As soon as possible”: time to begin implementing an IEP after it is developed

This Summary is intended to serve as a brief introduction to the laws dealing with special education in
Maryland; it is not a comprehensive review of all statutes, regulations and case law dealing with special
education. If you have any questions about the applicability of the law to an individual case, you should
consult an attorney who can provide more comprehensive answers to your specific questions.

**DISCLAIMER:** These materials are provided for informational purposes and are not a substitute for
individualized legal advice. Anyone seeking legal advice about a specific situation should seek the
services of a competent attorney

MSDE Nonpublic School Classifications

Definitions of the TYPE of nonpublic schools approved by the Maryland State Department of Education for schools offering special education are found in 13A.09.10. (Code of Maryland Regulations)

**TYPE I** – One or a combination of two or more of the following instructional programs by a school, on the grounds of the school, on a full-time basis to students who are enrolled in the instructional program of the school either general education or special education:

- Nursery school, kindergarten, elementary school, secondary school, or a combination of two or more sequential grades/ages;
- Adult basic education;
- Pre-GED program;
- GED TESTS preparation program;
- Career development educational program;
- Technology educational program;
- Special education and related services.

**TYPE II** – An instructional program in which instruction is provided by a nonpublic school and public school either on the grounds of the nonpublic school and/or the grounds of the public school, or solely on the grounds of the public school, with the primary goal of integrating students into public school instructional program to the greatest extent appropriate. The curriculum, instructional materials, and equipment, and library media services of the local school system are used by the school to implement the educational program.

**TYPE III** – An educational program that provides a transitional instructional program not to exceed an average of 60 school days in a facility licensed by another unit of state government. TYPE III general education programs may hold approval to operate any one or combination of the following:

- Nursery School;
- Kindergarten or grades 1-12, or any consecutive sequence of these that continues implementation of a student’s public school program;
- Diagnostic – prescriptive educational program;
- Pre-GED program; or
- GED TESTS preparation program.

The Maryland State Department of Education approves nonpublic schools under two sections of COMAR – 13A.09.09 and COMAR 13A.09.10
The MANSEF Schools are considered the least restrictive environment for the students served. The following is an excerpt of the COMAR regulation which provides guidance in the determination of least restrictive environment: COMAR 13A.05.01.10 Least Restrictive Environment (LRE)

A. General. A public agency shall ensure that:

(1) To the maximum extent appropriate, students with disabilities, including students in public or private institutions or other care facilities, are educated with students who are not disabled; and (2) Special classes, separate schooling, or other removal of students with disabilities from the regular educational environment occurs only when the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services, as described in Regulation .09A(1)(d) and (e) of this chapter, cannot be achieved satisfactorily.

B. Continuum of Alternative Placements. A public agency shall ensure that:

(1) A continuum of alternative placements is available:
   (a) To the extent necessary to implement the IEP; and
   (b) To meet the needs of students with disabilities for special education and related services;
(2) Alternative placements include the settings as listed in Regulation .03B(71) of this chapter; and
(3) Provisions for supplementary services, such as resource room and itinerant instruction, are available in conjunction with regular class placement.

C. Placements.

(1) A public agency shall ensure that:
   (a) The educational placement decision of a student with a disability is:
      (i) Made by the IEP team;
      (ii) Made in conformity with the LRE provision of the Act and Regulation .10 of this chapter;
      (iii) Determined at least annually;
      (iv) Based on the student's IEP; and
      (v) As close as possible to the student's home;
   (b) Unless the IEP of a student requires some other arrangement, the student is educated in the school or typical early childhood setting that the student would attend if not disabled;
   (c) In selecting the LRE, consideration is given to any potential harmful effect on the student or on the quality of services that the student needs;
   (d) A student with a disability is not removed from education in an age-appropriate regular classroom or typical early childhood setting solely because of needed modifications in the general curriculum; and
   (e) If the IEP team determines a student with a disability cannot be educated in the school or typical early childhood setting the student would attend if not disabled, the IEP shall document the specialized transportation needs of the student as defined in Regulation .03B(81) of this chapter, including consideration of the effect transportation may have on the student in relation to the:
      (i) Student's age and disability;
      (ii) Specialized equipment needs of the student;
      (iii) Personnel needed to assist the student during transportation;
      (iv) Amount of time involved in transporting the student; and
      (v) Distance the student will be transported.

**Code of Maryland Regulations - 13A.05.01.16 Students in Nonpublic Schools**

A. Local School System Placement of a Student with a Disability in a Nonpublic School.

(1) If a student's IEP cannot be implemented in a public school program, the local school system shall take steps in accordance with Education Article, §§4-122, 8-401, and 8-409, Annotated Code of Maryland, to ensure that the student is provided FAPE.

(2) Before the local school system proposes a placement of a student with a disability in a nonpublic school, the local school system shall ensure that an IEP has been developed for the student in accordance with Regulations .08 and .09 of this chapter.

(3) A local school system shall initiate and conduct meetings to review the student's IEP in accordance with Regulations .07—.10 of this chapter.

(4) A nonpublic school shall contact the local school system to request IEP team meetings to review the student's IEP, as appropriate.

(5) Responsibility for compliance with this chapter remains with the local school system and the Department.

(This is not a complete copy of the citation, see COMAR for full text.)

**Md. Education Code Annotated § 8-401 Definitions; domicile of child**

(a) Definitions. --

(1) In this subtitle the following words have the meanings indicated.

(2) "Child with a disability" means a child who has been determined through appropriate assessment as having autism, deaf-blindness, hearing impairment, including deafness, emotional disability, intellectual disability, multiple disabilities, orthopedic impairment, other health impairment, specific learning disability, speech or language impairment, traumatic brain injury, visual impairment, including blindness, and who because of that impairment needs special education and related services.

(3) "Free appropriate public education" means special education and related services that:

   (i) Are provided at public expense, under public supervision and direction, at no cost to the parents;
   
   (ii) Meet the standards of the State Board regulations and the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.);
   
   (iii) Includes preschool, elementary, and secondary education; and
   
   (iv) Are provided in conformance with the requirements of the child's individualized education program.

(4) (i) "Related services" means transportation and such developmental, corrective, and other supportive services as may be required to assist a child with a disability to benefit from special education.

   (ii) "Related services" includes the early identification and assessment of disabling conditions in children.

   (iii) "Related services" does not include a surgically implanted medical device or the replacement of the device.
(5) "Special education" means specially designed instruction, at no cost to parents, to meet the unique needs of a child with a disability, including:

(i) Instruction in the classroom, in the home, in hospitals and institutions, and in other settings; and

(ii) Instruction in physical education.

(b) Domicile of child. -- In this subtitle the domicile of a child with a disability is the county in which the parent or guardian who has legal custody of the child is domiciled.

Md. Education Code Ann. § 8-406 Placement of child with a disability in nonpublic educational program

(a) "Wraparound services" defined. -- In this section, "wraparound services":

(1) Means individualized services, excluding regular school programs or services, that are provided to a child with a disability and the child's family; and

(2) Includes the following services:

(i) Behavioral aide in home;
(ii) Education tutoring;
(iii) Family therapy;
(iv) Medication management;
(v) Respite care;
(vi) Vocational mentoring; and
(vii) Environmental accessibility adaptations.

(b) Basis for placement. --

(1) A child with a disability who needs special education and related services that cannot be provided in a public county, regional, or State program shall be placed in an appropriate nonpublic educational program that offers these services.

(2) A child with a disability who needs special education and related services is eligible for an appropriate nonpublic educational placement under this section if a State or local agency provides documentation that the child cannot attend a public school in the local school system:

(i) Because of the child's home circumstances; or
(ii) Subject to subsection (d)(1) and (2) of this section, because of medical necessity.

(c) Payment of cost -- In general. --

(1) The cost of the nonpublic educational program shall be paid by the State and the county in which the child is domiciled in accordance with § 8-415(d) of this subtitle, as appropriate.

(2) Subject to availability of funding in the State budget, for a child who qualifies for a nonpublic educational program under subsection (b)(2) of this section and who requires wraparound services in order to receive special education and related services in the least restrictive environment, the cost of providing the services shall be paid by the State and the county in which the child is domiciled in accordance with § 8-415(d) of this subtitle, if a State or local agency documents
that the child's parent or legal guardian is unable to provide the wraparound services.

(d) Payment of cost -- Approval by Department. --

(1) Payment or reimbursement for a nonpublic program may not be provided if the payment or reimbursement would require an additional contribution from the State under § 8-415(d)(2) of this subtitle unless the Department approves:

(i) The nonpublic program;
(ii) The placement of the child in the program;
(iii) The cost of the program; and
(iv) The amount of payment or reimbursement.

(2) For wraparound services, payment or reimbursement may not be provided in accordance with § 8-415(d) of this subtitle if:

(i) The child is eligible for funding for out-of-state placement of children under departmental regulations; or

(ii) Alternative federal, State, or local funding is available.

(3) Department approval is not required for a nonpublic program if:

(i) The local school system approves the placement of the child in the program; and

(ii) The local school system makes the payment or reimbursement from local funds.

(4) The State Board shall adopt regulations that establish standards and guidelines for approvals required by paragraph (3) of this subsection.

(e) Limitations on disapproval of placement recommended by local school system. -- A nonpublic placement recommended by a local school system for approval under subsection (d)(1) of this section shall be approved or disapproved pursuant to the regulations of the State Board. However, the Department may not disapprove a nonpublic placement recommended by a local school system for a child unless the Department provides an appropriate alternative placement in conformity with the regulations of the State Board and applicable federal laws and regulations. The Department may not terminate funding for the last approved nonpublic placement of a child during the pendency of an administrative or judicial review of a recommended placement change.

(f) Funding approval. -- In addition to meeting the requirements of this subtitle, a local school system seeking nonpublic tuition payment shall obtain funding approval from the local care teams and the State Coordinating Council in accordance with departmental regulations.
A. General. A local school system shall consider the placement of a student with a disability in a nonpublic program when:

(1) The local school system cannot implement the student’s IEP; and
(2) The nonpublic school program to which the student has been referred:

(a) Has been approved by the Department;
(b) Can implement the student’s IEP; and
(c) Is the least restrictive environment.

B. State Contributions for Funding In-State Nonpublic Placements.

(1) A State contribution for funding the costs of a placement for a student with a disability in an approved nonpublic school program is available for placements which meet the requirements of Education Article, §8-406, Annotated Code of Maryland, and Regulation .12 of this chapter.
(2) A local school system requesting a State funding contribution in accordance with Education Article, §8-414, Annotated Code of Maryland, shall apply to the Department for approval of the funding contribution for the placement of the student at the time and in the manner specified by the Department.
(3) The local school system shall provide written notice to the parents of a student with a disability when an application for a State contribution for funding a nonpublic school placement is submitted to the Department.
(4) If the Department disapproves a request for State funding of a nonpublic school placement recommended by a local school system for a student with a disability, the Department shall identify an available appropriate alternative placement.

(This is not a complete copy of the citation, see COMAR for full text.)
Individuals with Disability Education Act
IDEA – Citations from federal law

Sec. 300.114 LRE requirements

(a) General.

(1) Except as provided in Sec. 300.324(d)(2) (regarding children with disabilities in adult prisons), the State must have in effect policies and procedures to ensure that public agencies in the State meet the LRE requirements of this section and Sec. Sec. 300.115 through 300.120.

(2) Each public agency must ensure that--

(i) To the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities, are educated with children who are nondisabled; and

(ii) Special classes, separate schooling, or other removal of children with disabilities from the regular educational environment occurs only if the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily.

(b) Additional requirement--State funding mechanism.

(1) General. (i) A State funding mechanism must not result in placements that violate the requirements of paragraph (a) of this section; and

(ii) A State must not use a funding mechanism by which the State distributes funds on the basis of the type of setting in which a child is served that will result in the failure to provide a child with a disability FAPE according to the unique needs of the child, as described in the child's IEP.

(2) Assurance. If the State does not have policies and procedures to ensure compliance with paragraph (b)(1) of this section, the State must provide the Secretary an assurance that the State will revise the funding mechanism as soon as feasible to ensure that the mechanism does not result in placements that violate that paragraph.

Sec. 300.115 Continuum of alternative placements.

(a) Each public agency must ensure that a continuum of alternative placements is available to meet the needs of children with disabilities for special education and related services.

(b) The continuum required in paragraph (a) of this section must--

(1) Include the alternative placements listed in the definition of special education under Sec. 300.38 (instruction in regular classes, special classes, special schools, home instruction, and instruction in hospitals and institutions); and

(2) Make provision for supplementary services (such as resource room or itinerant instruction) to be provided in conjunction with regular class placement.
